Field Guide

Property Sharing

The screenshot shows the 'Let's Hunt' app interface. At the top, there's a dark green header with the 'Let's Hunt' logo on the left and navigation icons (a white arrow and a white menu icon) on the right. Below the header are three orange buttons: 'Hunt', 'Map', and 'Edit'. A light green banner below the buttons reads 'Loaded property: South Field — 180.3 acres'. Underneath is a satellite map of a property. The 'Property Details' section is a white card with a minus icon in the top right corner. It contains several text input fields: 'OWNER' (with a green tag), 'South Field', 'Robertson', 'Deer, Turkey, Predator', 'Any regulated seasonal method', '5', and 'No hunting near pond'. Below this is the 'Shared Users' section, which is highlighted with a red border. It shows a user 'john.smith@example.com' with a role dropdown menu set to 'Admin' and a red 'Remove' button. Below this, there are more input fields for 'User email' and another role dropdown menu set to 'Admin'. At the very bottom, a dark green button labeled 'Share Property' is partially visible.

5. A successfully added user will display in the Property Details panel under Shared Users.

Repeat the process to give additional users access. Revoking access is as simple as clicking **Remove** next to the User's info.

You can also change the sharing role by changing it in the dropdown.

See the following page for full role descriptions and permissions.
