BY HUMANS
FOR HUMANS

TEEEN is a **design** and
advertising studio built on
human intelligence, emotion,
and clarity. In a world of
automated noise, we create
brands with **intention, culture,
and precision.** |

Print Design

Brand Design

We build brands that live beyond logos.

From strategy and naming to complete identity systems, we create visual languages that communicate with clarity and purpose. Every detail is intentional because brands deserve meaning, not decoration

- 03 BRAND VOICE & GUIDELINE
- 04 PACKAGING & COLLATERAL

UI/UX Design

Digital experiences should feel effortless

We design interfaces that combine beauty with **usability**, turning **complex** journeys into intuitive interactions that engage users and drive results.

01 WEBSITE & APP INTERFACE DESIGN

02 UX STRATEGY & WIREFRAMING

03 PROTOTYPING & INTERACTION DESIGN

04 CONVERSION-OPTIMIZED DIGITAL EXPERIENCES

PROJECT 1

PROJECT 1

PROJECT 1

PROJECT 1

A vintage, rusted car is shown floating in a body of water. The car is heavily weathered, with significant rust and peeling paint. It is positioned in the center of the frame, with its reflection clearly visible in the calm water below. A white play button icon is overlaid on the rear window of the car. The background is a soft, hazy landscape with trees and a light sky. The overall color palette is muted and desaturated, with a teal or blue-green tint.

Video & Motion

Stories move people. Motion brings them to life.

We transform ideas into cinematic visuals designed to capture **attention and communicate** clearly across modern platforms.

ANIMATIONS

STORYBOARDING &
COLOR GRADING

A black and white graphic featuring two profiles facing each other. The profile on the left is a human silhouette, and the profile on the right is a textured, metallic-looking surface representing an AI. The text "AI Production" is centered between them. A thin white grid with crosshairs is overlaid on the image.

AI Production

Next-generation creative production powered by AI.

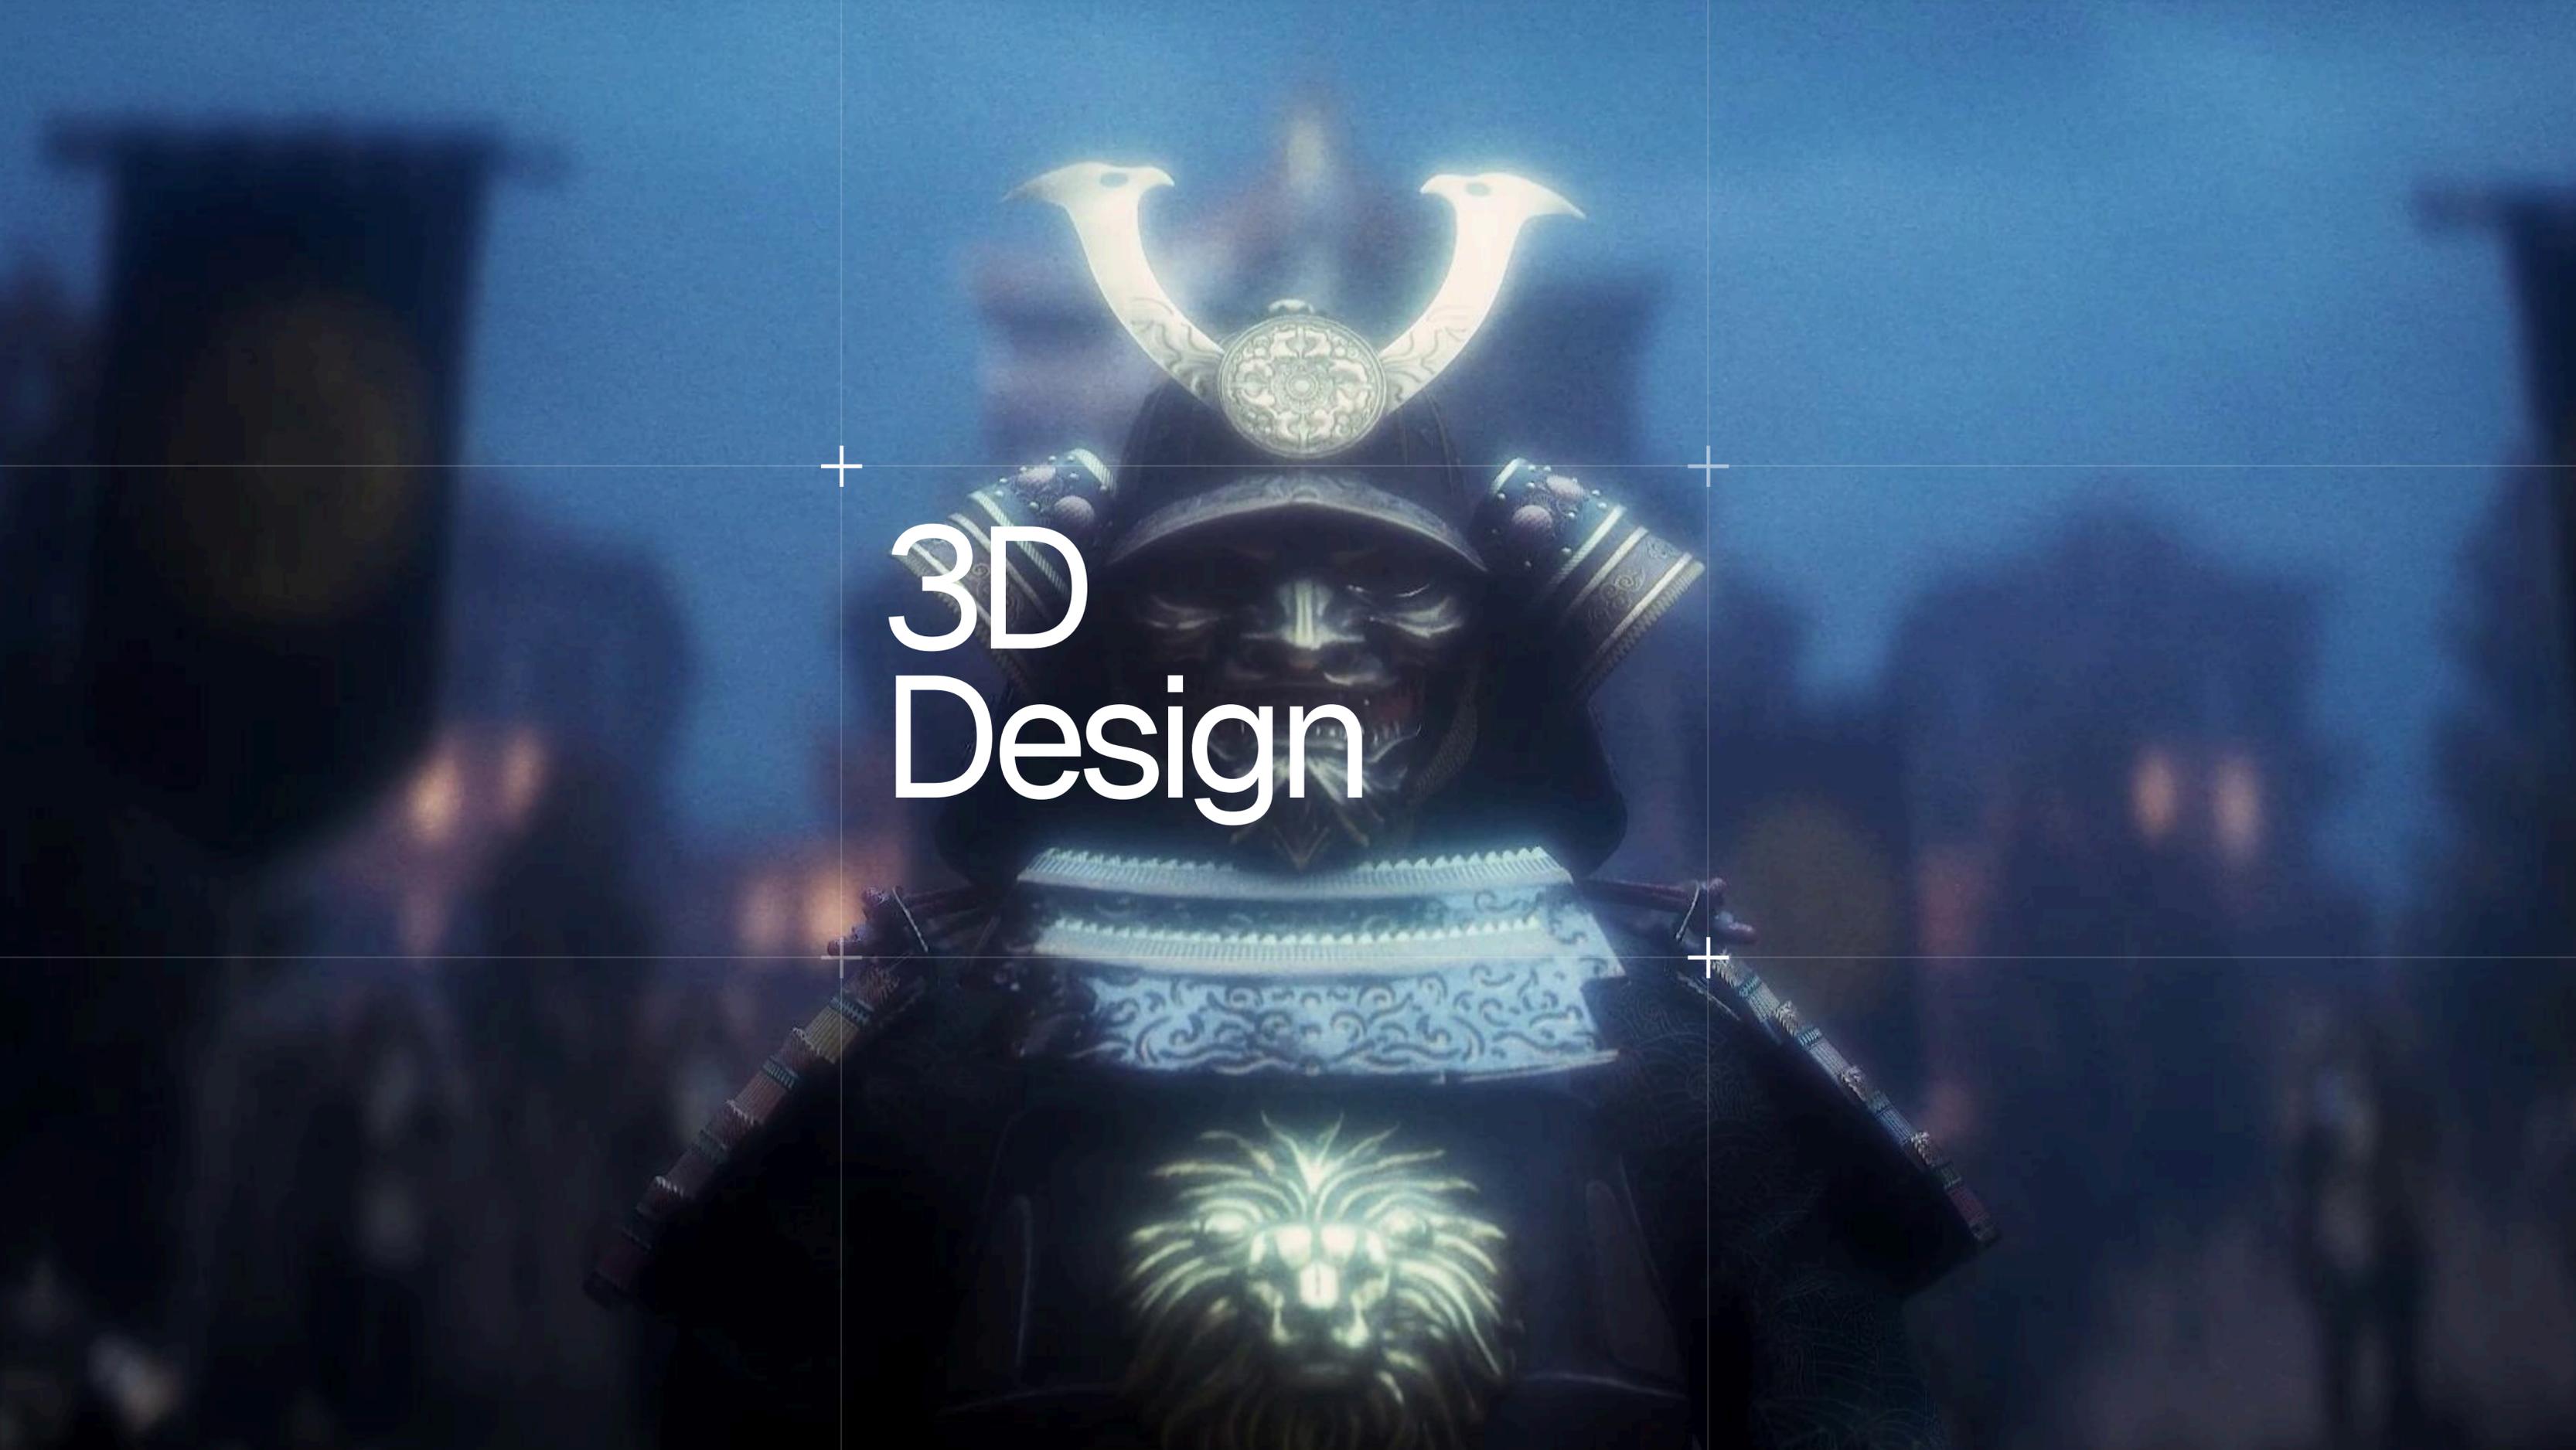

We combine human creativity with advanced AI workflows to produce striking **visuals, campaigns, and content** at speed and scale.
