

Standard Appointment Fees & Medicare Rebates

Our standard appointment is 20 minutes. When booking your appointment, please consider how much time you may require with your doctor. If you have multiple concerns or a complex health issue, we recommend booking a longer appointment. Updated 22/10/26

Appointment	Duration	MBS Item*	Fee	Medicare Rebate*	Estimated Out-of-Pocket*
Very Brief	5 minutes	3	\$40.00	\$20.55	\$19.45

Comprehensive	60 minutes	123	\$480.00	\$207.90	\$272.10

Medicare rebates

Medicare rebates shown are based on standard GP attendance item numbers and are provided as a guide. Medicare rebates are subject to patient eligibility and Medicare rules. Your doctor will determine the appropriate Medicare item number following your consultation. As Medicare eligibility and claiming requirements can vary between patients and services, our reception team may not be able to advise you. For specific questions regarding your Medicare eligibility, you may need to contact Medicare directly.

Specialised consultations

Specialised consultations, procedures and certain healthcare services do not necessarily follow the standard time-based fees or Medicare rebates shown above. These services may attract different fees and/or specialised Medicare item numbers.

Where a specialised consultation is required, please enquire with our team regarding the specific appointment type and applicable fees when booking.

ADHD –\$750 first appointment (Possible Medicare rebate = \$207, Gap= \$543)

90 minutes including Pre-screening questionnaire, examination, and possibly investigations including ECG, blood test and urine tests. May include a diagnosis or may require results before being able to conclude on a diagnosis or lack thereof.
