Module Structure

What's included in VR Job Interview Simulator

The focus of this module is the simulation, giving the learner an opportunity to practise answering interview questions as much as they like. It is bookended by ancillary activities such as onboarding, self-reflection, and the exit survey.

It is estimated that the module will take the learner approximately 10 minutes to complete, although completion time will vary depending on how many questions they choose to practise, and if they choose to fine-tune their responses.

Learning goals

In this interview, you can choose what type of questions to answer. You'll then watch yourself back and get valuable feedback.

- Classic questions - those common questions that come up in nearly every interview
- Career goal questions - professional achievements and aspirations
- Character questions - who you are, your morals, integrity and values
- Competency or behavioural questions - evidencing your ability to do the job
- Curveball or creative questions designed to put you on the spot
