Module Structure

What's included in VR Inclusive Leadership - Resolving Conflict

This learning journey takes the learners through four topics and ends with self-reflection and an exit survey. It is a linear experience, meaning the learner will be guided step by step through all the activities. We recommend that learners fully interact with each activity to get the full benefit.

It is estimated that each topic will take the learner approximately 3 minutes to complete, although completion times vary depending on whether the learner chooses to fine-tune their freeform responses.

Learning goals

Diversity isn't just about bringing different people together, it's about creating an environment where everyone feels welcome and accepted. This scenario looks at a set of techniques that will help you resolve conflicts by coaching the manager to do so.

- Learn how a leader's own behaviour can perpetuate inappropriate behaviour
- Develop skills to help others address the source of their conflicts
- Practise coaching others to lead by example
