Experience Overview

What's included in VR Forklift Hazard Recognition

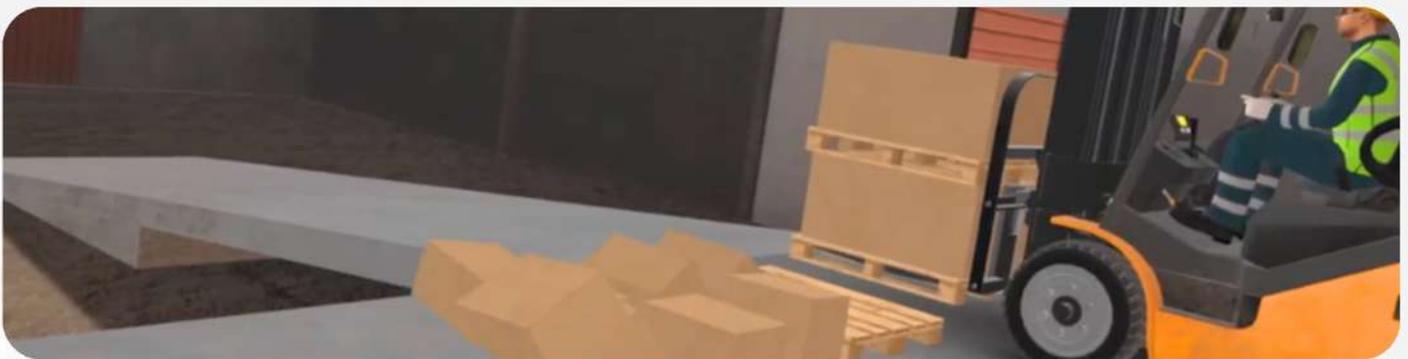

Experience the Forklift Hazard Recognition VR Training! In the VR simulator you will learn how to identify various hazards and prevent accidents in the field.

You will identify hazards in and around the truck, use the right tools, and have the right feedback such as sounds, tool actions, and peer collaboration.

You'll learn how to eliminate workplace hazards associated with forklift operation.

You will also see and learn about the consequences of misusing the truck and how to avoid accidents.

You'll visit different workplaces and experience different forklift situations.

Available in 10 Languages
