Experience Overview

What's included in VR Personal Protective Equipment

Personal Protective Equipment, commonly referred to as "PPE", is equipment worn to minimize exposure to hazards that cause serious workplace injuries and illnesses. These injuries and illnesses can result from exposure to chemical, radiological, physical, electrical, mechanical, or other workplace hazards.

In the VR Training you will find the following preparation scenarios:

Electrical Work: 1 kV, 10 kV, 15 kV, 25 kV Tasks

Chemical hazards: Levels A,B,C,D

The VR Training includes checking basic PPEs, declining the damaged ones, understanding of the checking process, dividing the PPEs into the ones that you are wearing now and the ones that you should bring to your workplace.

Available in 10 Languages

User Control

Empowering users with hands-on precision in every simulation.

Electrical Work 1 kV

In the Learning Mode you'll be guided through the following steps. In the Training and Exam modes you'll be on your own completing the task. To exit the task press the Menu button.

1. Welcome to the Personal Protective Equipment VR Training. Select the mode. Point the controller at the mode and press the trigger.

2. Go to the locker. To move, point at the green circle and press the trigger.
3. Open the locker. To do this, place your hand on the door handle and press the trigger.
4. Pick up the uniform and inspect it. To pick up an item, move your hand to it and press the trigger
5. If the uniform is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
6. If the uniform is good, use it. To use an item, click on the USE option in the menu with the raycast.
7. Pick up Safety Shoes and inspect them. To pick up an item, move your hand to it and press the trigger.
8. If the Safety Shoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
9. If the Safety Shoes are good, use them. To use an item, click on the USE option in the menu with the raycast.
10. Pick up Insulated Gloves and inspect them. To pick up an item, move your hand to it and press the trigger.
11. If the Insulated Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
12. If the Insulated Gloves are good, use them. To use an item, click on the USE option in the menu with the raycast.

13. Pick up the hard hat and inspect it. To pick up an item, move your hand to it and press the trigger.

14. If the hard hat is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

15. If the hard hat is good, use it. To use an item, click on the USE option in the menu with the raycast.

16. Pick up safety goggles and inspect them. To pick up an item, move your hand to it and press the trigger.

17. If the safety goggles are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

18. If the safety goggles are good, use them. To use an item, click on the USE option in the menu with the raycast.

19. Close the locker. To do this, place your hand on the door handle and press the trigger.

20. Come to the mirror on the wall. To move, point the controller at the green circle and press the trigger.

21. Check your basic personal protective equipment in the mirror and, if all is good, click the COMPLETE FIRST STEP button on the door to complete the task.

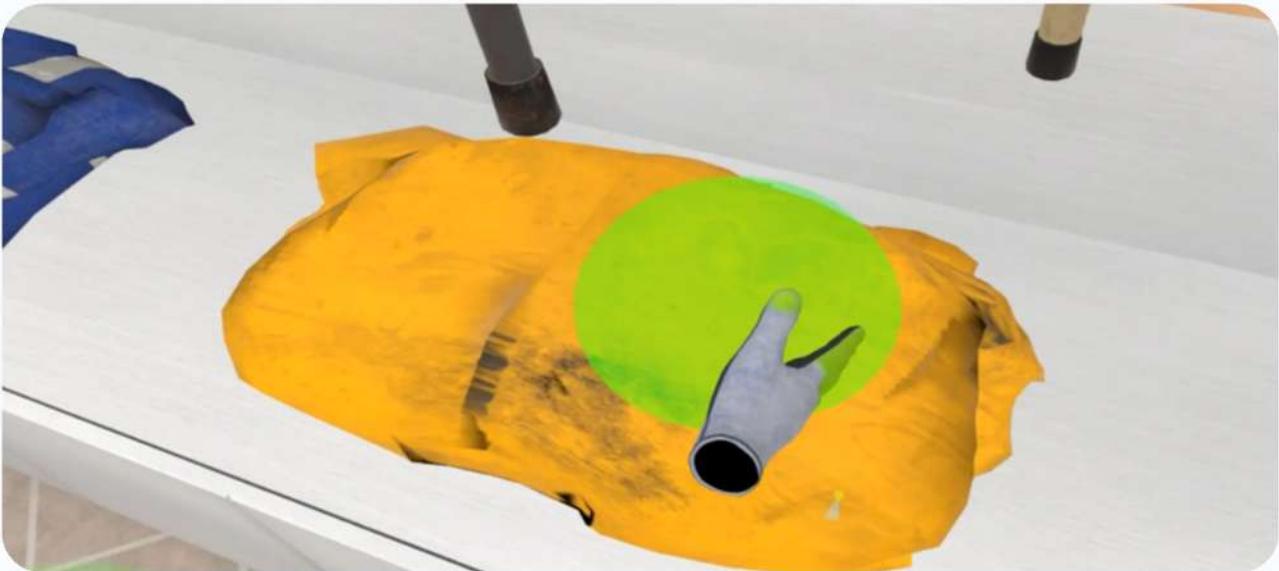

22. Come to the table. To move, point the controller at the green circle and press the trigger.

23. Read the document. To do this, inspect it until the green check mark appears.
24. Sign the document. To do this, move your hand to the document and press the trigger.
25. Come to the personal protective equipment storage. To move, point the controller at the green circle and press the trigger.
26. Collect and inspect personal protective equipment and safety tools required for the task from the signed document. Place the collected equipment on your cart.
27. Pick up and inspect the Insulating Rod with the correct voltage label. You will need two to complete this task. To pick up an item, move your hand to it and press the trigger.
28. If the Insulating Rod is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
29. Place the Insulating Rod in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
30. Pick up and inspect one more Insulating Rod with the correct voltage label. To pick up an item, move your hand to it and press the trigger.
31. Pick up and inspect the Low Voltage indicator with the correct voltage label. You will need two to complete this task. To pick up an item, move your hand to it and press the trigger.
32. Check the Low Voltage indicator. To check an item, click on the CHECK option in the menu with the raycast and wait for the result.

33. If the Low Voltage indicator is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
34. Place the Low Voltage Indicator in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
35. Pick up and inspect one more Low Voltage indicator with the correct voltage label. To pick up an item, move your hand to it and press the trigger.
36. Pick up and inspect the Insulating pliers with the correct voltage label. You will need two to complete this task.
37. If the Insulating pliers are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
38. Place the Insulating pliers in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
39. Pick up and inspect one more pair of Insulating pliers with the correct voltage label.
40. Pick up and inspect the Dielectric gloves with the correct voltage label. You will need two pairs to complete this task.
41. If the Dielectric gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
42. Place the Dielectric gloves in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

43. Pick up and inspect one more pair of the Dielectric gloves with the correct voltage label.

44. Pick up and inspect the Dielectric Overshoes with the correct voltage label. You will need two to complete this task.

45. If the Dielectric Overshoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

46. Place the Dielectric Overshoes in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

47. Pick up and inspect one more pair of the Dielectric Overshoes with the correct voltage label.

48. Pick up and inspect the Insulated Mat with the correct voltage label. You will need one mat for the task.

49. If the Insulated Mat is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

50. Place the Insulated Mat in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

51. Pick up and inspect the Safety fence. You will need two to complete this task.

52. If the Safety fence is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

53. Place the Safety fence near the cart. To place an item near the cart, click on the USE option in the menu with the raycast.

54. Pick up and inspect one more Safety fence.

55. Pick up and inspect Safety Posters. You will need three to complete this task.

56. If the Safety Poster is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

57. Place the Safety Poster in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

58. Pick up and inspect one more Safety Poster. You will need three to complete this task.

59. Pick up and inspect one more Safety Poster. You will need three to complete this task.

60. Pick up and inspect the faceshield. You will need one for the task.

61. If the faceshield is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

62. Place the faceshield in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

63. Pick up and inspect the Portable earthing. You will need one for the task.

64. If the Portable earthing is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

65. Place the Portable earthing in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

66. Check your personal protective equipment and safety tools for the task and, if all is good, click the COMPLETE THE TASK button on the door.

67. The task is completed.

68. To exit the task press the Menu button.

Electrical Work 10 kV

In the Learning Mode you'll be guided through the following steps. In the Training and Exam modes you'll be on your own completing the task. To exit the task press the Menu button.

1. Welcome to the Personal Protective Equipment VR Training. Select the mode. Point the controller at the mode and press the trigger.
2. Go to the locker. To move, point at the green circle and press the trigger.
3. Open the locker. To do this, place your hand on the door handle and press the trigger.
4. Pick up the uniform and inspect it. To pick up an item, move your hand to it and press the trigger.
5. If the uniform is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
6. If the uniform is good, use it. To use an item, click on the USE option in the menu with the raycast.

7. Pick up Safety Shoes and inspect them. To pick up an item, move your hand to it and press the trigger.
8. If the Safety Shoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
9. If the Safety Shoes are good, use them. To use an item, click on the USE option in the menu with the raycast.
10. Pick up Insulated Gloves and inspect them. To pick up an item, move your hand to it and press the trigger.
11. If the Insulated Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
12. If the Insulated Gloves are good, use them. To use an item, click on the USE option in the menu with the raycast.
13. Pick up the hard hat and inspect it. To pick up an item, move your hand to it and press the trigger.
14. If the hard hat is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
15. If the hard hat is good, use it. To use an item, click on the USE option in the menu with the raycast.
16. Pick up the safety goggles and inspect them. To pick up an item, move your hand to it and press the trigger.

17. If the safety goggles are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

18. If the safety goggles are good, use them. To use an item, click on the USE option in the menu with the raycast.

19. Close the locker. To do this, place your hand on the door handle and press the trigger.

20. Come to the mirror on the wall. To move, point the controller at the green circle and press the trigger.

21. Check your basic personal protective equipment in the mirror and, if all is good, click the COMPLETE FIRST STEP button on the door to complete the task.

22. Come to the table. To move, point the controller at the green circle and press the trigger.

23. Read the document. To do this, inspect it until the green check mark appears.

24. Sign the document. To do this, move your hand to the document and press the trigger.

25. Come to the personal protective equipment storage. To move, point the controller at the green circle and press the trigger.

26. Collect and inspect personal protective equipment and safety tools required for the task from the signed document. Place the collected equipment on your cart.

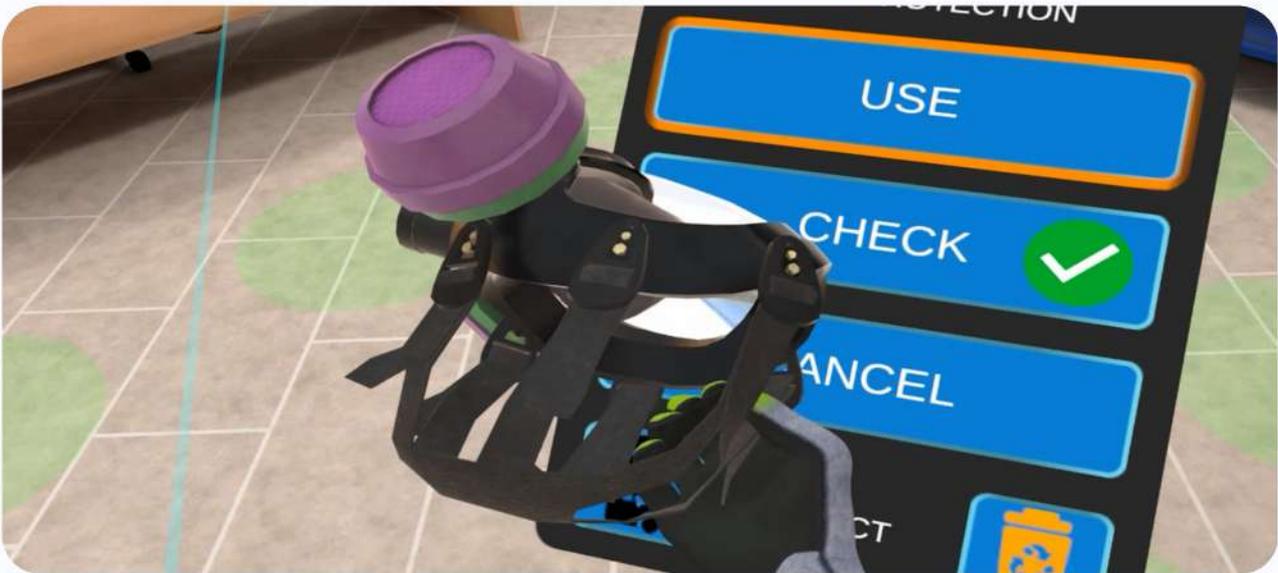

27. Pick up and inspect the Insulating Rod with the correct voltage label. You will need two to complete this task. To pick up an item, move your hand to it and press the trigger.

28. If the Insulating Rod is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
29. Place the Insulating Rod in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
30. Pick up and inspect one more Insulating Rod with the correct voltage label. To pick up an item, move your hand to it and press the trigger.
31. Pick up and inspect the Voltage Indicator with the correct voltage label. You will need two to complete this task. To pick up an item, move your hand to it and press the trigger.
32. Check the Voltage Indicator. To check an item, click on the CHECK option in the menu with the raycast and wait for the result.
33. If the Voltage Indicator is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
34. Place the Voltage Indicator in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
35. Pick up and inspect one more Voltage Indicator with the correct voltage label. To pick up an item, move your hand to it and press the trigger.
36. Pick up and inspect the Dielectric Gloves Class Two. You will need two pairs to complete this task.
37. If the Dielectric Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

38. Place the Dielectric Gloves in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
39. Pick up and inspect one more pair of Dielectric Gloves with the correct class label.
40. Pick up and inspect the Dielectric Overshoes Class Two. You will need two to complete this task.
41. If the Dielectric Overshoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
42. Place the Dielectric Overshoes in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
43. Pick up and inspect one more pair of Dielectric Overshoes Class Two.
44. Pick up and inspect the Portable Earthing with the correct voltage label. You will need two to complete this task.
45. If the Portable Earthing is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
46. Place the Portable Earthing in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
47. Pick up and inspect one more Portable Earthing with the correct voltage label. You will need two to complete this task.
48. Pick up and inspect the Safety Fence. You will need two to complete this task.

49. If the Safety Fence is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

50. Place the Safety Fence near the cart. To place an item near the cart, click on the USE option in the menu with the raycast.

51. Pick up and inspect one more Safety Fence.

52. Pick up and inspect the Safety Posters. You will need three to complete this task.

53. If the Safety Poster is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

54. Place the Safety Poster in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

55. Pick up and inspect one more Safety Poster. You will need three to complete this task.

56. Pick up and inspect one more Safety Poster. You will need three to complete this task.

57. Pick up and inspect the Faceshield. You will need one for the task.

58. If the Faceshield is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

59. Place the Faceshield in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

60. Pick up and inspect the Insulating Gas Mask. You will need two for the task.
61. If the Insulating Gas Mask is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
62. Place the Insulating Gas Mask in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
63. Pick up and inspect one more Insulating Gas Mask. You will need two for the task.
64. Check your personal protective equipment and safety tools for the task and, if all is good, click the COMPLETE THE TASK button on the door.
65. The task is completed.
66. To exit the task, press the Menu button.

34. Place the Voltage Indicator in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
35. Pick up and inspect one more Voltage Indicator with the correct voltage label. To pick up an item, move your hand to it and press the trigger.
36. Pick up and inspect the Dielectric Gloves Class Two. You will need two pairs to complete this task.
37. If the Dielectric Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

38. Place the Dielectric Gloves in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

39. Pick up and inspect one more pair of Dielectric Gloves with the correct class label.

40. Pick up and inspect the Dielectric Overshoes Class Two. You will need two to complete this task.

41. If the Dielectric Overshoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

42. Place the Dielectric Overshoes in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

43. Pick up and inspect one more pair of Dielectric Overshoes Class Two.

44. Pick up and inspect the Portable Earthing with the correct voltage label. You will need two to complete this task.

45. If the Portable Earthing is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

46. Place the Portable Earthing in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

47. Pick up and inspect one more Portable Earthing with the correct voltage label. You will need two to complete this task.

48. Pick up and inspect the Safety Fence. You will need two to complete this task.

49. If the Safety Fence is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

50. Place the Safety Fence near the cart. To place an item near the cart, click on the USE option in the menu with the raycast.

51. Pick up and inspect one more Safety Fence.

52. Pick up and inspect the Safety Posters. You will need three to complete this task.

53. If the Safety Poster is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

54. Place the Safety Poster in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

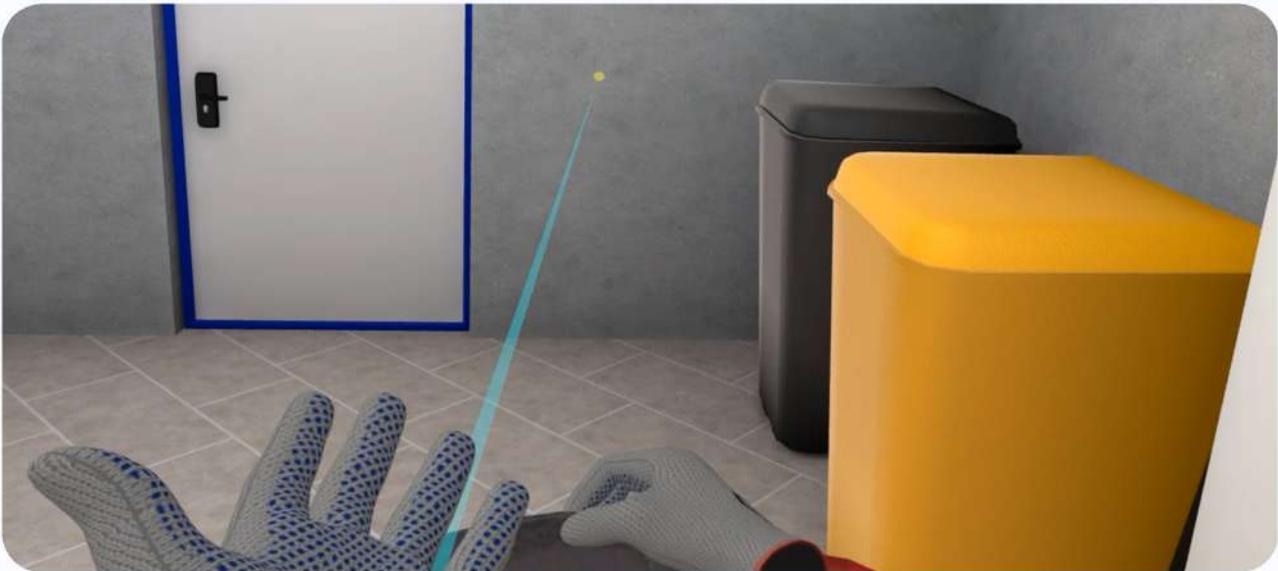

55. Pick up and inspect one more Safety Poster. You will need three to complete this task.

56. Pick up and inspect one more Safety Poster. You will need three to complete this task.

57. Pick up and inspect the Faceshield. You will need one for the task.

58. If the Faceshield is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

59. Place the Faceshield in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

60. Pick up and inspect the Insulating Gas Mask. You will need two for the task.

61. If the Insulating Gas Mask is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

62. Place the Insulating Gas Mask in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

63. Pick up and inspect one more Insulating Gas Mask. You will need two for the task.

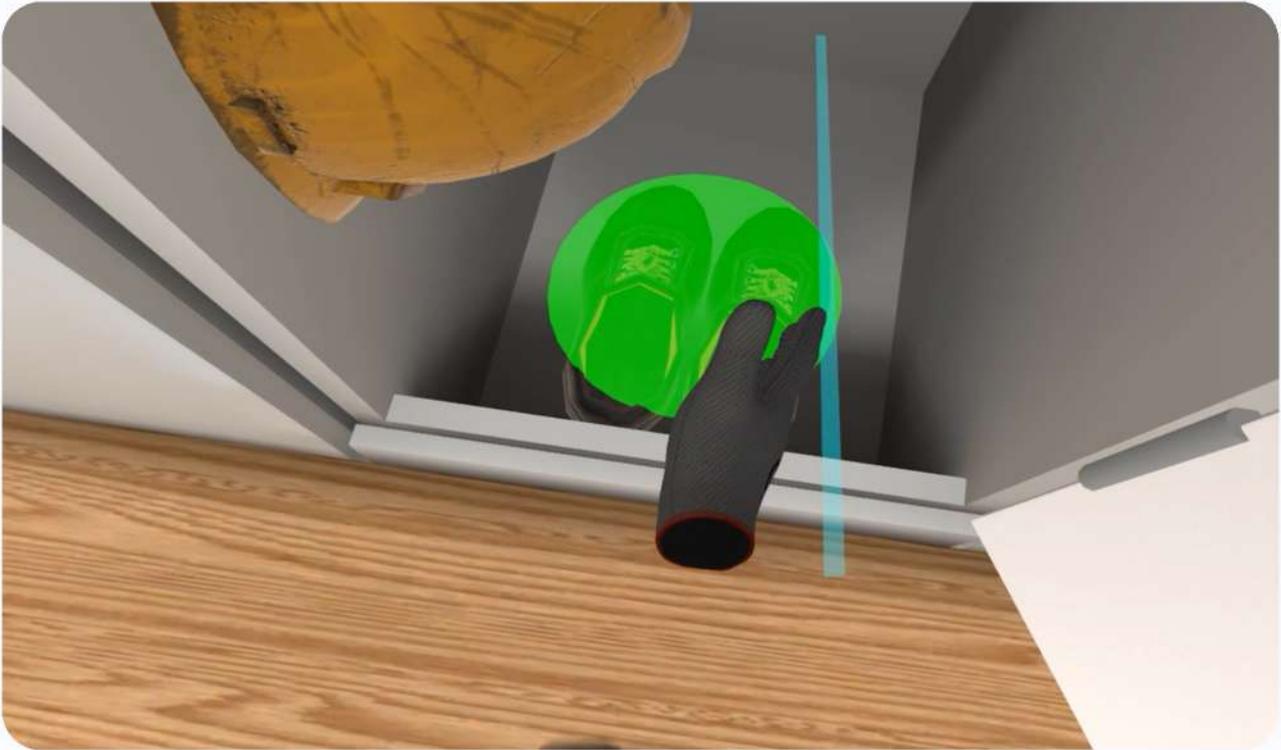

64. Check your personal protective equipment and safety tools for the task and, if all is good, click the COMPLETE THE TASK button on the door.

65. The task is completed.

66. To exit the task, press the Menu button.

5. If the uniform is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
6. If the uniform is good, use it. To use an item, click on the USE option in the menu with the raycast.

7. Pick up Safety Shoes and inspect them. To pick up an item, move your hand to it and press the trigger.
8. If the Safety Shoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
9. If the Safety Shoes are good, use them. To use an item, click on the USE option in the menu with the raycast.
10. Pick up Insulated Gloves and inspect them. To pick up an item, move your hand to it and press the trigger.
11. If the Insulated Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
12. If the Insulated Gloves are good, use them. To use an item, click on the USE option in the menu with the raycast.
13. Pick up the hard hat and inspect it. To pick up an item, move your hand to it and press the trigger.
14. If the hard hat is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
15. If the hard hat is good, use it. To use an item, click on the USE option in the menu with the raycast.
16. Pick up safety goggles and inspect them. To pick up an item, move your hand to it and press the trigger.

17. If the safety goggles are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
18. If the safety goggles are good, use them. To use an item, click on the USE option in the menu with the raycast.
19. Close the locker. To do this, place your hand on the door handle and press the trigger.
20. Come to the mirror on the wall. To move, point the controller at the green circle and press the trigger.
21. Check your basic personal protective equipment in the mirror and, if all is good, click the COMPLETE FIRST STEP button on the door to complete the task.
22. Come to the table. To move, point the controller at the green circle and press the trigger.
23. Read the document. To do this, inspect it until the green check mark appears.
24. Sign the document. To do this, move your hand to the document and press the trigger.
25. Come to the personal protective equipment storage. To move, point the controller at the green circle and press the trigger.
26. Collect and inspect personal protective equipment and safety tools required for the task from the signed document. Place the collected equipment on your cart.

27. Pick up and inspect the Insulating Rod with the correct voltage label. You will need two to complete this task. To pick up an item, move your hand to it and press the trigger.

28. If the Insulating Rod is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

29. Place the Insulating Rod in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

30. Pick up and inspect one more Insulating Rod with the correct voltage label. To pick up an item, move your hand to it and press the trigger.

31. Pick up and inspect the Voltage indicator with the correct voltage label. You will need two to complete this task. To pick up an item, move your hand to it and press the trigger.

32. Check the Voltage indicator. To check an item, click on the CHECK option in the menu with the raycast and wait for the result.

33. If the Voltage indicator is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

34. Place the Voltage Indicator in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

35. Pick up and inspect one more Voltage indicator with the correct voltage label. To pick up an item, move your hand to it and press the trigger.

36. Pick up and inspect the Dielectric gloves class three. You will need two pairs to complete this task.

37. If the Dielectric gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

38. Place the Dielectric gloves in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

39. Pick up and inspect one more pair of the Dielectric gloves with the correct class label.

40. Pick up and inspect the Dielectric Overshoes class three. You will need two to complete this task.

41. If the Dielectric Overshoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

42. Place the Dielectric Overshoes in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

43. Pick up and inspect one more pair of the Dielectric Overshoes class three.

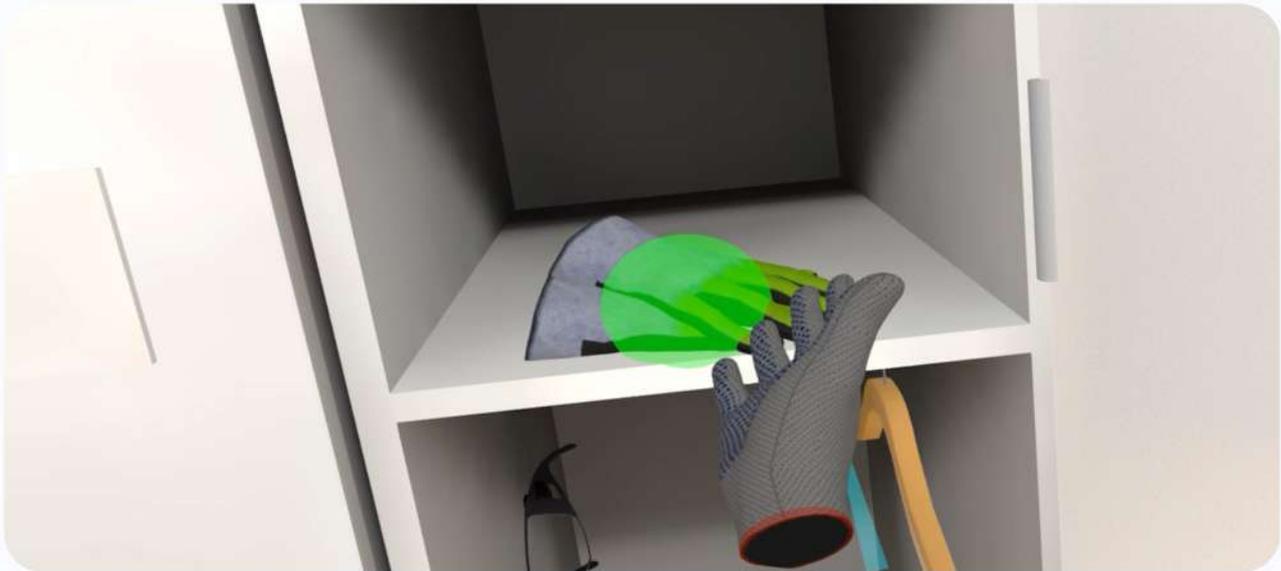

44. Pick up and inspect the Portable earthing with the correct voltage label. You will need two to complete this task.

45. If the Portable earthing is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

46. Place the Portable earthing in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

47. Pick up and inspect one more Portable earthing with the correct voltage label. You will need two to complete this task.
48. Pick up and inspect the Safety fence. You will need two to complete this task.
49. If the Safety fence is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
50. Place the Safety fence near the cart. To place an item near the cart, click on the USE option in the menu with the raycast.
51. Pick up and inspect one more Safety fence.
52. Pick up and inspect Safety Posters. You will need three to complete this task.
53. If the Safety Poster is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
54. Place the Safety Poster in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.
55. Pick up and inspect one more Safety Poster. You will need three to complete this task.
56. Pick up and inspect one more Safety Poster. You will need three to complete this task.
57. Pick up and inspect the faceshield. You will need one for the task.

58. If the faceshield is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

59. Place the faceshield in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

60. Pick up and inspect the insulating gas mask. You will need two for the task.

61. If the insulating gas mask is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

62. Place the insulating gas mask in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

63. Pick up and inspect one more insulating gas mask. You will need two for the task.

64. Check your personal protective equipment and safety tools for the task and, if all is good, click the COMPLETE THE TASK button on the door.

65. The task is completed.

66. To exit the task press the Menu button.

Chemical hazards Level A

In the Learning Mode you'll be guided through the following steps. In the Training and Exam modes you'll be on your own completing the task. To exit the task press the Menu button.

1. Welcome to the Personal Protective Equipment VR Training. Select the mode. Point the controller at the mode and press the trigger.
2. Go to the locker. To move, point at the green circle and press the trigger.
3. Open the locker. To do this, place your hand on the door handle and press the trigger.
4. Pick up the uniform and inspect it. To pick up an item, move your hand to it and press the trigger.
5. If the uniform is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
6. If the uniform is good, use it. To use an item, click on the USE option in the menu with the raycast.

7. Pick up Safety Shoes and inspect them. To pick up an item, move your hand to it and press the trigger.
8. If the Safety Shoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
9. If the Safety Shoes are good, use them. To use an item, click on the USE option in the menu with the raycast.
10. Pick up Insulated Gloves and inspect them. To pick up an item, move your hand to it and press the trigger.
11. If the Insulated Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
12. If the Insulated Gloves are good, use them. To use an item, click on the USE option in the menu with the raycast.
13. Pick up the hard hat and inspect it. To pick up an item, move your hand to it and press the trigger.
14. If the hard hat is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
15. If the hard hat is good, use it. To use an item, click on the USE option in the menu with the raycast.
16. Pick up safety goggles and inspect them. To pick up an item, move your hand to it and press the trigger.

17. If the safety goggles are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

18. If the safety goggles are good, use them. To use an item, click on the USE option in the menu with the raycast.

19. Close the locker. To do this, place your hand on the door handle and press the trigger.

20. Come to the mirror on the wall. To move, point the controller at the green circle and press the trigger.

21. Check your basic personal protective equipment in the mirror and, if all is good, click the COMPLETE FIRST STEP button on the door to complete the task.

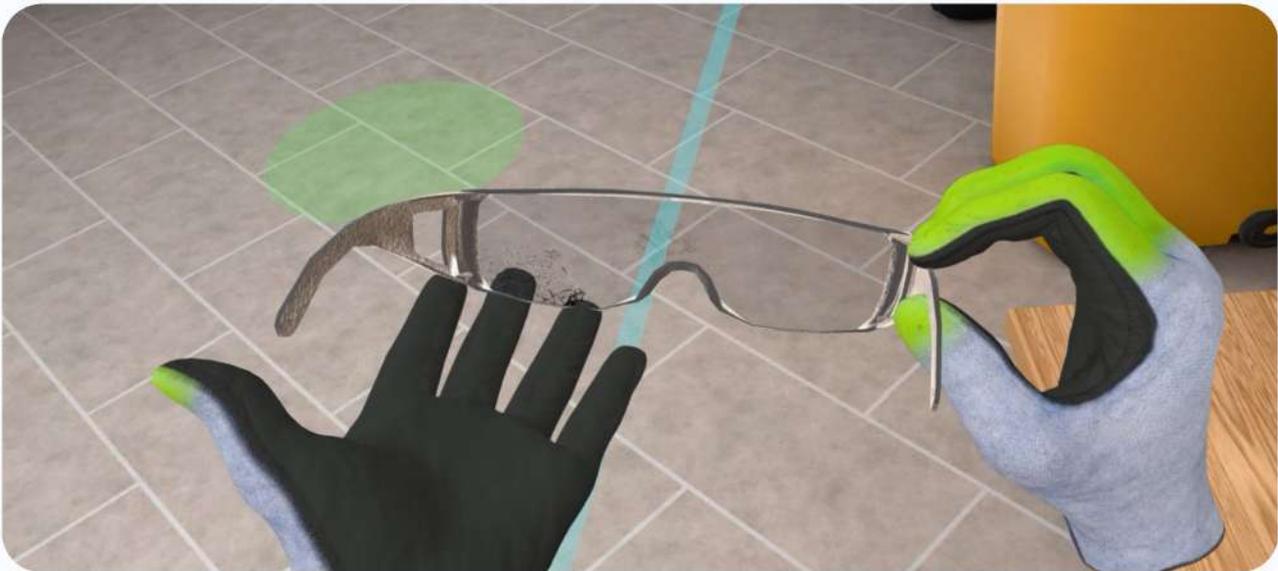

22. Come to the table. To move, point the controller at the green circle and press the trigger.

23. Read the document. To do this, inspect it until the green check mark appears.

24. Sign the document. To do this, move your hand to the document and press the trigger.

25. Come to the personal protective equipment storage. To move, point the controller at the green circle and press the trigger.

26. Collect and inspect personal protective equipment and safety tools required for the task from the signed document. Place the collected equipment on your cart.

27. Pick up and inspect the Hooded chemical resistant suite. You will need one to complete this task. To pick up an item, move your hand to it and press the trigger.

28. If the chemical resistant suite is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

29. Place the chemical resistant suite in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

30. Pick up and inspect the Safety shoes. You will need one pair to complete this task. To pick up an item, move your hand to it and press the trigger.

31. If the Safety shoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

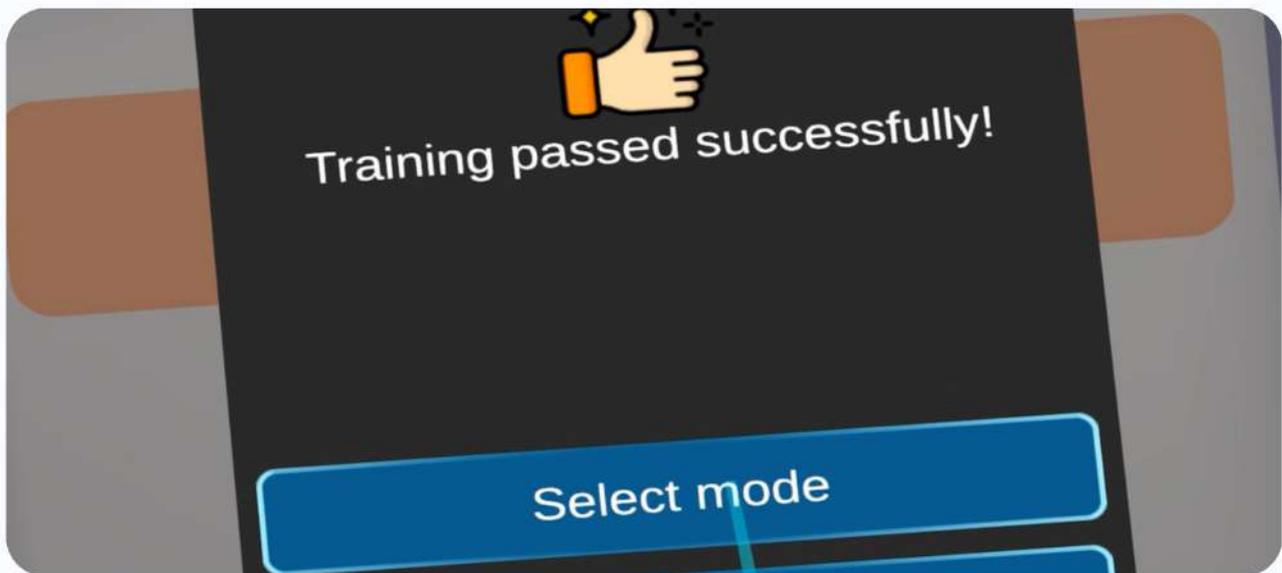

32. Place the Safety shoes in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

33. Pick up and inspect the Full face mask air purifying respirator. You will need one to complete this task. To pick up an item, move your hand to it and press the trigger.

34. Check the Full face respirator. To check an item, click on the CHECK option in the menu with the raycast and wait for the result.

35. If the Full face respirator is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

36. Place the Full face respirator in the cart. To place an item in the cart, click on the USE option in the menu with the raycast.

37. Pick up and inspect the chemical resistant gloves. You will need one pair to complete this task. To pick up an item, move your hand to it and press the trigger.

38. If the chemical resistant gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

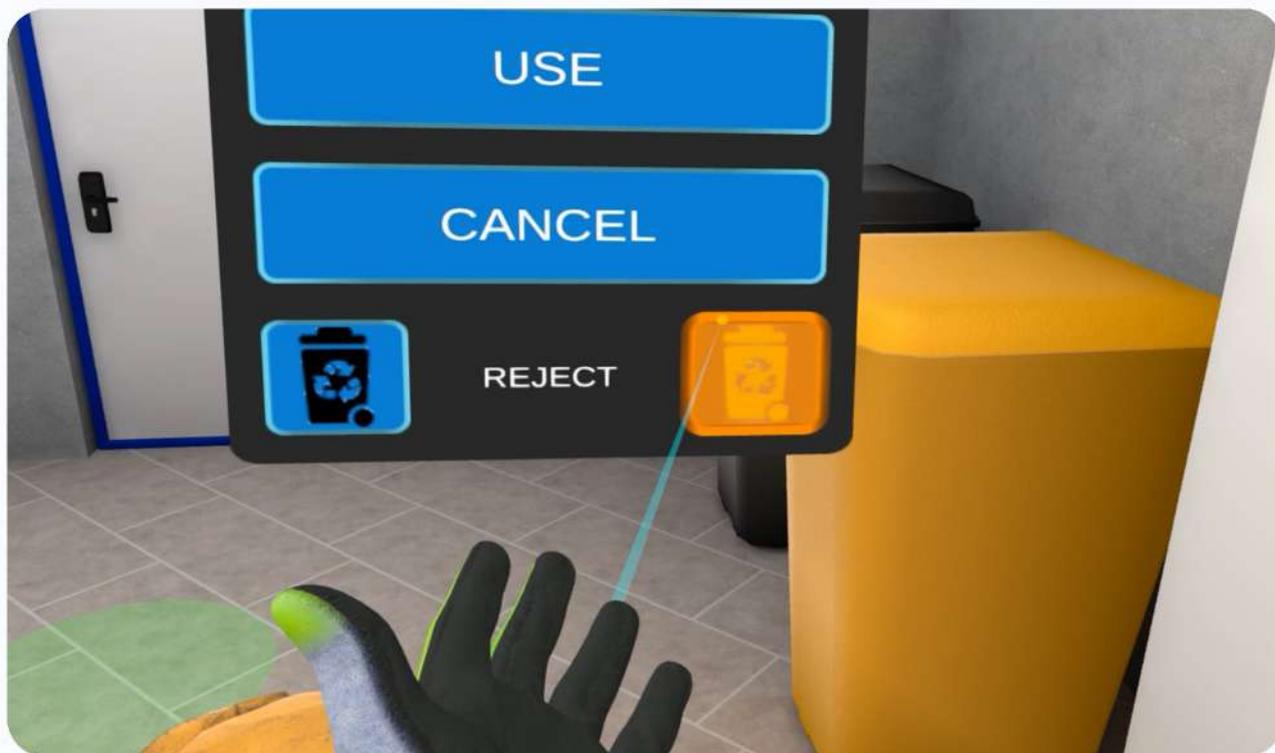

39. Place the chemical resistant gloves in the cart. To place an item in the cart, click on the USE option in the menu with the raycast. Check your personal protective equipment and safety tools for the task and, if all is good, click the COMPLETE THE TASK button on the door.

40. The task is completed.

41. To exit the task press the Menu button.

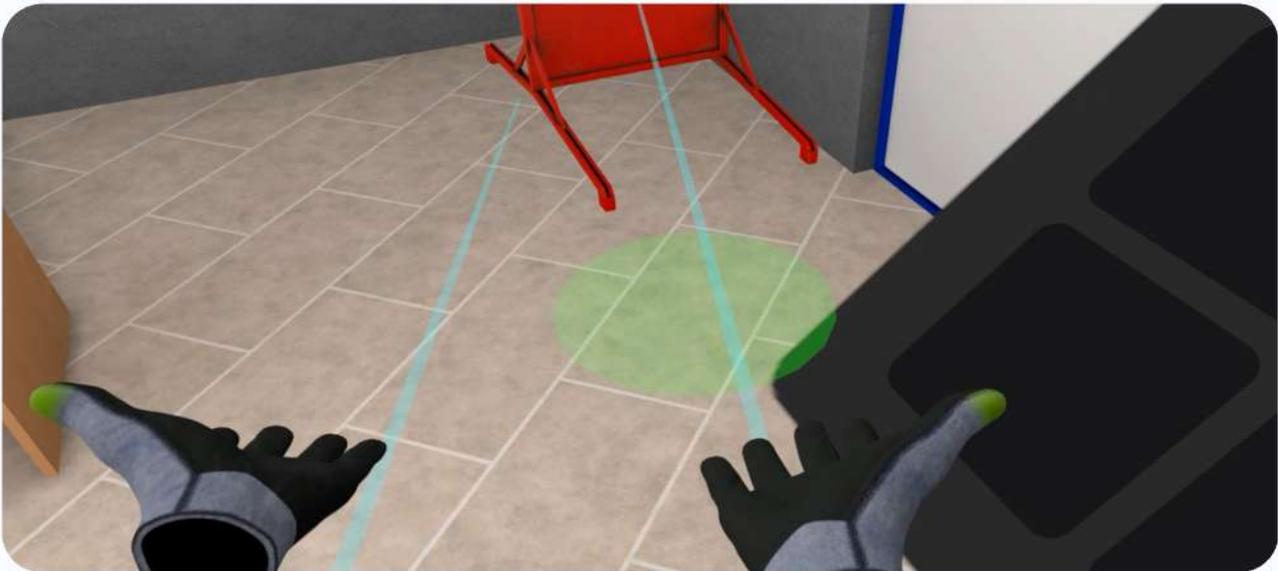

Chemical hazards Level B

In the Learning Mode you'll be guided through the following steps. In the Training and Exam modes you'll be on your own completing the task. To exit the task press the Menu button.

1. Welcome to the Personal Protective Equipment VR Training. Select the mode. Point the controller at the mode and press the trigger.
2. Go to the locker. To move, point at the green circle and press the trigger.
3. Open the locker. To do this, place your hand on the door handle and press the trigger.
4. Pick up the uniform and inspect it. To pick up an item, move your hand to it and press the trigger.
5. If the uniform is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
6. If the uniform is good, use it. To use an item, click on the USE option in the menu with the raycast.

7. Pick up Safety Shoes and inspect them. To pick up an item, move your hand to it and press the trigger.
8. If the Safety Shoes are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
9. If the Safety Shoes are good, use them. To use an item, click on the USE option in the menu with the raycast.
10. Pick up Insulated Gloves and inspect them. To pick up an item, move your hand to it and press the trigger.
11. If the Insulated Gloves are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
12. If the Insulated Gloves are good, use them. To use an item, click on the USE option in the menu with the raycast.
13. Pick up the hard hat and inspect it. To pick up an item, move your hand to it and press the trigger.
14. If the hard hat is damaged, put it in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.
15. If the hard hat is good, use it. To use an item, click on the USE option in the menu with the raycast.
16. Pick up safety goggles and inspect them. To pick up an item, move your hand to it and press the trigger.

17. If the safety goggles are damaged, put them in the bin. To put an item in the bin, click on one of the bins near the REJECT option in the menu.

18. If the safety goggles are good, use them. To use an item, click on the USE option in the menu with the raycast.

19. Close the locker. To do this, place your hand on the door handle and press the trigger.

20. Come to the mirror on the wall. To move, point the controller at the green circle and press the trigger.

21. Check your basic personal protective equipment in the mirror and, if all is good, click the COMPLETE FIRST STEP button on the door to complete the task.

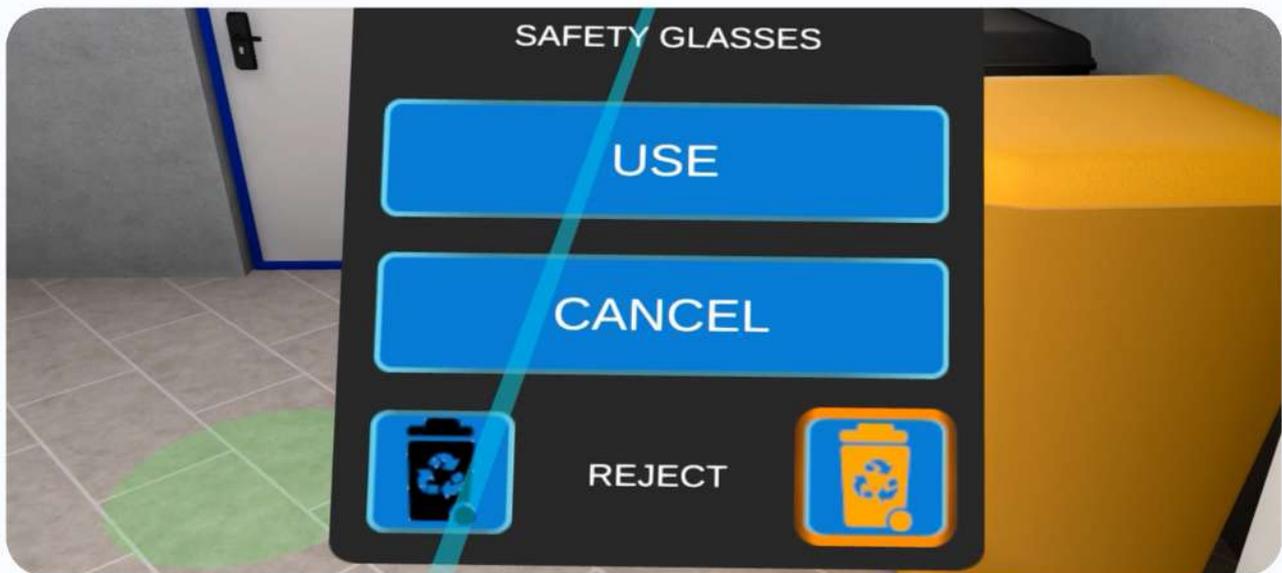

22. Come to the table. To move, point the controller at the green circle and press the trigger.
