Training

Certificate

# Experience Overview

What's included in VR Workplace Safety

**Workplace Safety VR Training will teach you to identify factors that make the work unsafe and how to eliminate them.**

You will have to find hazards in the industrial environment around different workplaces, pay attention to the procedure for compliance with labor protection requirements and several applicable technical and administrative measures of labor protection requirements (for example, mandatory PPE, monitor temperature exposure limits, and protective measures for exposure to harmful and hazardous industrial factors).

The training takes place in the warehouse with the equipment.

- Italian
- Spanish

# User Control

Empowering users with hands-on precision in every simulation.

# Module Walkthrough

In the Learning Mode you'll be guided through the following steps. In the Training and Exam modes you'll be on your own completing the task. To exit the task press the Menu button.

1. Welcome to the Health and Safety VR training. Select the mode. To do this, point the controller at the mode and pull the trigger.

2. Welcome to occupational safety and health VR Training. Locate all occupational safety violations at the production site. Identify employer non-compliance with occupational health and safety requirements or unsafe behavior of employees. To identify a violation, hover the controller pointer over the violation and pull the trigger. To control the violations identified, use the checklist located on the wall. Move to the violation. To move, hover the controller pointer over the green circle and pull the trigger.

**Inspection topics:**

- Workplace lighting;
- Work ergonomics;
- Evacuation signs;
- Work of pregnant women;
- Temperature conditions of work;
- Personal protective equipment;
- No barricade around equipment;
- Non-certified tools;
- Rest conditions;
- Working at height near unbarricaded areas;
- Work for minors.

3. To exit the task press the Menu button.
