# CRYPTO'S MAIN CHALLENGES

- 1) Trust Deficit → New projects look risky in a market full of scams.
- 2) Audience Overload → Paid ads blend into the noise of 1,000+ competing tokens & platforms.
- 3) Low Conversion → Even when people see ads, they rarely act without a trusted recommendation.

*"88% of crypto buyers say they're more likely to try a product when recommended by a trusted influencer."*
