SERVICE BULLETIN # 84

PART NUMBER CHANGE

We would like to advise of a change to our part numbering system. The service assembly parts numbers ending in --N will be replaced with a part number ending in --0. For example, part number 23431--N is being replaced with part number 23431--0. The part numbers contain exactly the same components and are totally interchangeable. This change only applies to hubs beginning with 2 or 4 (Hub Piloted). This change is effective immediately.

If you have any questions regarding this change, please contact us at the address or phone number shown on this bulletin or at sales@webbwheel.com.
