FOR EARTH BIO PLUS®

5 Litre

FOR EARTH

supplies many Councils across Australia FOR EARTH BIO PLUS® to vastly improve treatment process at their Sewage Plants..

FOR EARTH BIO PLUS®

is a selection of beneficial bacteria specific for the waste breakdown from human, animal, organic, greases and fats. The beneficial bacteria have been selected due to their appetite for these wastes and also their ability to survive and multiply in harsh conditions.

ELIMINATES ODOUR

Highly effective. FOR EARTH BIO PLUS® eliminates rather than masks odour very quickly with direct application.

EASY TO APPLY

Comes in liquid form, highly concentrated – just flush 200ml into toilet weekly.

AERATED WASTEWATER TREATMENT SYSTEMS (AWTS)

require the bacteria supplied in FOR EARTH BIO PLUS® to be at optimum performance.

Many service contractors recommend FOR EARTH BIO PLUS® for these systems especially if they are overloaded or in cooler climates.

SEPTICS - Cleans out blocked and smelly drains and greatly improves and extends the life of absorption trenches. Extends the pump out period Is a total solution to Septic problems.

BOATS & CAMPERVANS

Suitable for use in black and grey waste holding tanks to eliminate odours.

PRICING - FOR EARTH BIO PLUS® 5L - \$60.00

5 Litres will generally supply 6 months application
