Water, wastewater & Odour solutions

For Earth Bio Plus

Eliminate Odours & Fats in Your Sewer System

Powerful Biological Treatment for Pump Stations & Pipework

- ✓ Prevents Pipe Narrowing
- ✓ Removes odours
- ✓ Better Performance

Sample Automated Dosing Cabinets

Automated Bacteria Dosing Systems

For Earth automated dosing systems provide consistent and controlled delivery of biological treatment to sewer infrastructure, improving performance and reducing maintenance.

Key Features:

- ✓ **Stainless steel lockable cabinet**
 - Insulated for hot and cold climates
- ✓ **Mounted on powder-coated aluminium stand**
 - Durable and corrosion-resistant
- ✓ **Detachable cabinet stand**
 - Ideal for flood-prone areas
- ✓ **Built-in dosing system**
 - Includes dosing pump and 24-hour timer (15-min increments)
- ✓ **Flexible power options**
 - 240V supply or battery-powered dosing pumps available
- ✓ **Custom finish**
 - Cabinet can be powder coated to any colour
 - Popular option: dark green to blend with surroundings

The Solution: For Earth Bio Plus

For Earth Bio Plus is a powerful biological treatment designed to safely and effectively remove fats and odours from sewer systems.

Using advanced bioaugmentation technology, it works naturally to restore system performance without harsh chemicals.

Key Benefits:

- ✓ Biologically degrades fats, oils & grease (FOGs)
- ✓ Eliminates sewer and septic odours
- ✓ Reduces hydrogen sulphide (H₂S)
- ✓ Minimises pipe narrowing & corrosion
- ✓ Improves pumping performance
- ✓ Safe, simple application (no OH&S risks)
