

JAS'S FOLIO.

Recently, I started my **Public Speaking** by inspiring my Juniors and many other students with the name **Design is Everywhere**, which describes the scope and importance of design and its related roles.

A short glimps of a **TECHY-DESIGNER** who calls himself as an **UX UNICORN**

BOX OFFICE THE GAME

Box office is a game with similar game play as uno with more depth and relativity.

Tools used: Illustrator, Photoshop.

Font: Badaboom BB

Cause for creation:

Me and my friends found the regular game of uno to be **less involving**, felt like its played on top of the brain. it **lacked communication**. relevance to the locality could have been better. So, we decide made a version for us with a twist.

Stand outs:

We **added a calling out aspect** to the game where the player calls out things every time they take a turn. The player **had to also think** what he has to call out with respect to the previous player as well as what the next player.

Ideation

- ✔ Simple
- ✔ Unique
- ✔ Should represent me

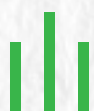

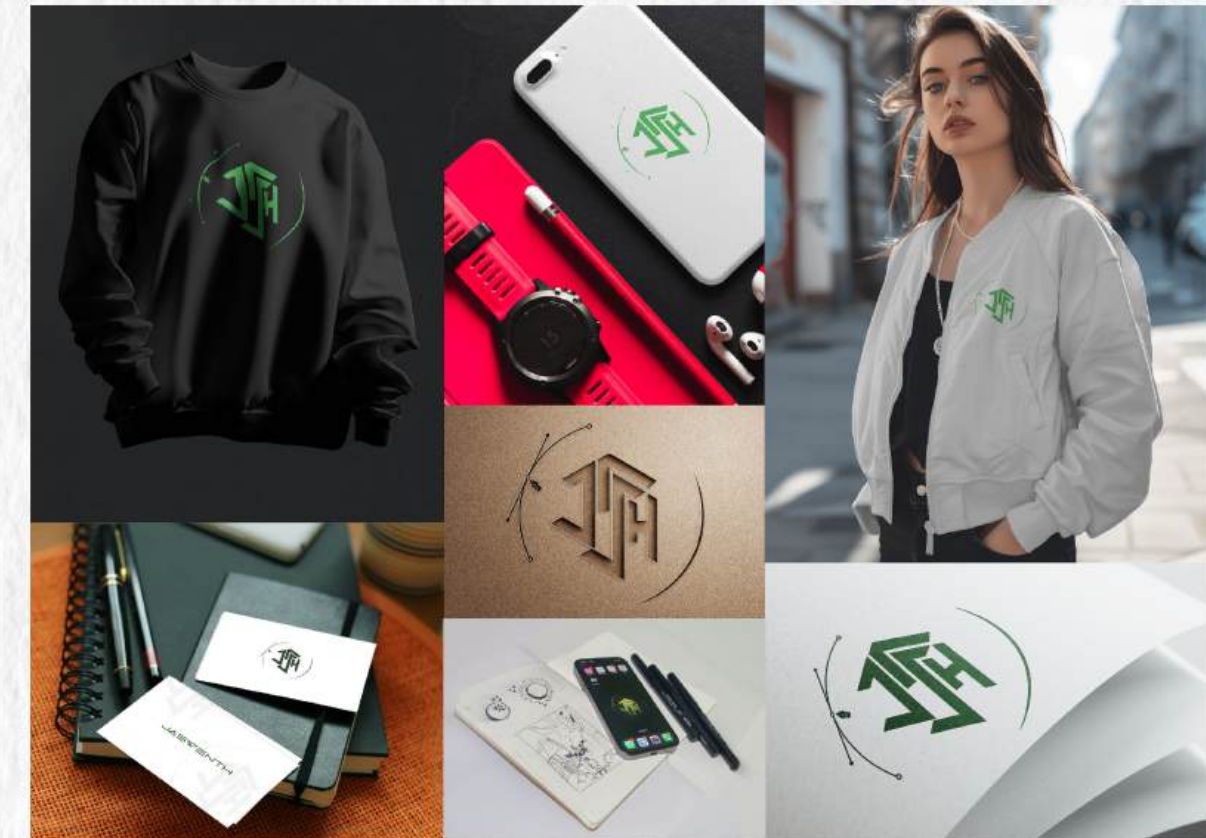

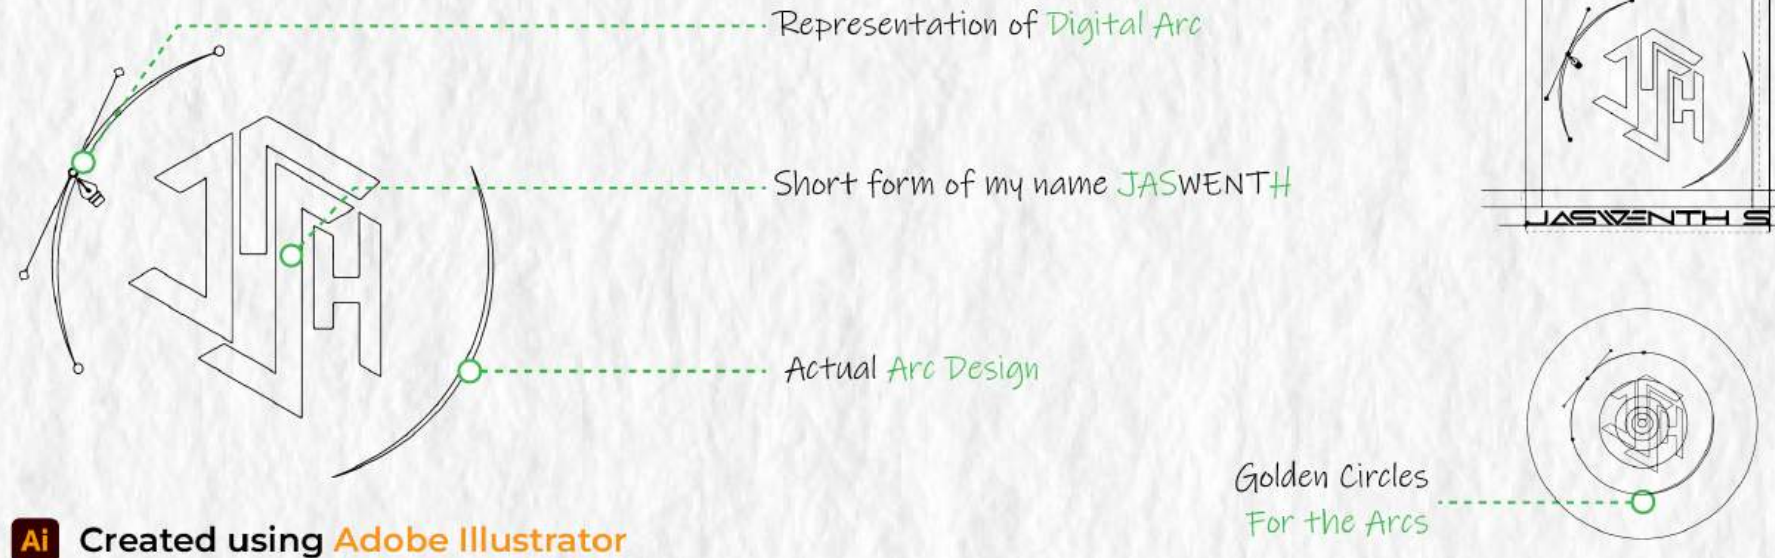

Color Code
#39b54a

MY curiosity and a passion for design, I created this logo to showcase my understanding of the visual communication and UI elements. As a brand-focused designer, I believe that a strong logo is essential for building a memorable and recognizable identity. This logo reflects my personal aesthetic and design philosophy, demonstrating my ability to craft visually appealing and impactful branding solutions.

SO YOU ARE ALL THE WAY HERE !!
WANNA KNOW ABOUT ME ????

Hey There!

This is **JASWENTH S**

An UI/UX enthusiast and a passionate Software developer, I was fascinated by how something as simple as an intuitive user interface and experience could make such a profound difference in people's lives. From my internships to full-time roles and digital marketing, my journey has been driven by one core belief: design has the power to solve real-world problems and improve lives.

Resume

THANK YOU!
