

ALL STAR STIM

Allowed Input
Cert. No. 19013

Approved to use in
Organic Agricultural System

• Multi-Purposed Biostimulant

Seawin's **ALL STAR STIM** is a balanced bio-stimulant that is designed for: protect plants from stresses, lift soil health, enhance microbe activities and enhance nutrient uptake. It is a product that can be added to enhance any existing program.

Product Features

- **PGA**-Strong water and nutrient retention abilities
- **Fulvic Acid**-Promotes growth and soil health
- **Amino Acid**-Stimulates growth and nitrogen cycling
- **Green Seaweed Polysaccharide**-Promotes growth
- **Alginic Acid**-Anti-stress abilities

Seawin's Advantage

- **PGA(Polyglutamic Acid)**: Extracted from Bacillus fermentation, high concentration to provide excellent water and nutrient retention
- **Amino Acid**: Extracted from fish skin using advanced enzymolysis, light weight molecules to provide bio-stimulant properties
- **Green Seaweed Polysaccharide & Alginic Acid**: Unique enzymatic Extraction with Seawin's patented technology-high level of active ingredients retained

Packaging Sizes: 20L, 1000L

Product Analysis

| | |
|------------------------------|--------|
| Fulvic Acid..... | 5% |
| PGA..... | 0.5% |
| Amino Acid..... | 1% |
| Seaweed Polysaccharides..... | 10% |
| Alginic Acid..... | 3% |
| Organic Matter..... | 15-20% |

A complex range of plant growth hormones are naturally presented as this product from the enzymatic extraction of light weight amino acid molecules and seaweed.

Physical Characteristics

Liquid, pH 4.0-6.0

Application

Soil Drench up Weedstrip:
20-40L/ha. Minimum 400L of water/Ha

Fertigation/Pivot/Overhead Sprinkler:
20-40L/ha

'Jar Test' needed for compatibility testing if used with other fertilisers/Agchem products.

For application suggestions specific to your crop, please contact your local agronomists or Seawin's distributors.
