

# K-BOOSTER

## • ***Highly concentrated NPK liquid with added Biologicals***

**K-BOOSTER**(NPK 10-2-29 liquid) is a highly concentrated NPK liquid, rich in NPK and organic nutrients(from seaweed extract). Organic nutrients makes inorganic nutrition more available for plant uptake, promotes fruit set, swelling & coloration.

Packaging Sizes: 10L

### Product Features

- High concentration of Seawin's Polyaccharides(10%) to boost nutrients uptake.
- Polysaccharide+K boosts fruit swelling & coloration.
- High organic matter for better soil fertility.
- Liquid form with instant solubility,delivering nutrients straight to root zone.

### Product Analysis

Nitrogen(N).....	10%
as urea	
Phosphorous(P).....	2%
Potassium(K).....	29%
Boron(B).....	0.1%
Zinc(Zn).....	0.1%
Seaweed Polysaccharides.....	10%
Organic Matter.....	28%

### Seawin's Advantage

Patented multi-step enzymatic extraction method extracts consistent and high quality polysaccharide, which brings the following benefits:

- Natural chelating agent
- Soil buffering agent
- Bio-stimulant properties
- Reduces stress and aids recovery

### Physical Characteristics

Liquid, pH:4-6, Specific Gravity 1.46

### Application

**Fertigation:** 10-20L/ha.

Multiple applications needed during fruit set & swelling period.

**Foliar:** 5-10 L/ha

'Jar Test' needed for compatibility testing if applying with other products.

For application suggestions specific to your crop, please contact your local agronomist or Seawin's distributors.
