

SEATRACE MIX

• *Seaweed & EDTA Dual-chelated Trace elements*

Seawin's **SEATRACE MIX** is a fertiliser rich in major and chelated trace elements such as Boron (B), Magnesium (Mg), Iron (Fe), Zinc(Zn), Copper (Cu) and Manganese (Mn), and extracts from the brown kelp *Laminaria (Saccharina) japonica* to improve the utilization rate of these essential nutrients.

Packaging Size: 20L

Product Features

- Designed to provide maintenance level of multiple trace elements
- EDTA & seaweed polysaccharide dual chelating effect for readily nutrient uptake
- Improves fruits flavour and color
- Organic matter improves microbe activities

Seawin's Advantage

Patented multi-step enzymatic extraction method extracts consistent and high quality polysaccharide, which brings the following benefits:

- Natural chelating agent
- Soil buffering agent
- Bio-stimulant properties
- Reduces stress and aids recovery
- Improves soil structure

Product Analysis

| | |
|------------------------|-------|
| Potassium(K)..... | 4.2% |
| Sulphur(S)..... | 1% |
| Magnesium(Mg)..... | 1% |
| Boron(B)..... | 0.3% |
| Iron(Fe)EDTA..... | 0.13% |
| Zinc(Zn)EDTA..... | 0.24% |
| Copper(Cu)EDTA..... | 0.14% |
| Manganese(Mn)EDTA..... | 0.09% |
| Organic Matter..... | 20% |

Physical Characteristics

Black brown liquid, pH 4-7,
Specific Gravity 1.23 - 1.28

Application

Fertigation: 5-10L/ha

Foliar: 1-5 L/ha.

Can be applied together with Agchem sprays, 'Jar Test' needed for compatibility testing.

For application suggestions specific to your crop, please contact your local agronomist or Seawin's distributors.
