

Granular NPK

15-6.5-12.5

• ***NPK General purpose fertilizer with Seaweed chelating extract***

Seawin's biological enhanced compound **N:P:K (15-6.5-12.5)** is a combination of Nitrogen, Phosphorus, Potassium and Seawin's Polysaccharides. These nutrients are in highly available forms to support crop health and yields.

Product Features

- Balanced N:P:K formula + Oligosaccharide
- Comprehensive nutrition
- Greatly increase yield and quality
- Added Oligosaccharide to improve nutrients availability
- Assist plants to cope with environmental stresses

Seawin's Polysaccharide (Alginic acid)

Patented multi-step enzymatic extraction method extracts consistent and high quality Polysaccharide, which brings the following benefits:

- Natural chelating agent
- Soil buffering agent
- Bio-stimulant properties
- Reduces stress and aids recovery
- Improves soil structure

Packaging Size: 40Kg

Product Analysis

Nitrogen(N)	
as Nitrate.....	5%
as Ammonia.....	10%
Total	15%
Phosphorus(P).....	6.5%
Potassium(K).....	12.5%

Organic Inputs

Seaweed Polysaccharides.....1000ppm

This product contains equivalent of 5L of liquid seaweed extract per 100 kg. (0.5% w/w of Seawin's SeaGreen Extra)

Physical Characteristics

Granular

Application

150-600kg/ha

For application suggestions specific to your crop, please contact your local agronomist or Seawin's distributors.
