

# Granular NPK

## 18-4.3-10

### • ***NPK General purpose fertilizer with Seaweed chelating extract***

Seawin's biological enhanced compound **N:P:K (18-4.3-10)** is a combination of Nitrogen, Phosphorus, Potassium and Seawin's Polysaccharides providing crops with essential nutrients.

#### Product Features

- Compound N:P:K + Polysaccharide
- Added Polysaccharide to enhance plants immunity
- Increase utilization rate of nutrition.
- Promote soil aggregate structure
- Supply full nutrition to crops, long-lasting fertility

#### Seawin's Advantage

Patented multi-step enzymatic extraction method extracts consistent and high quality Polysaccharide, which brings the following benefits:

- Natural chelating agent
- Soil buffering agent
- Bio-stimulant properties
- Reduces stress and aids recovery
- Improves soil structure

Packaging Size: 40Kg

#### Product Analysis

Nitrogen(N)	
as nitrate .....	13%
as Ammonia .....	5%
Total .....	18%
Phosphorus(P).....	4.3%
Potassium(K).....	10%

#### Organic Inputs

Seaweed Polysaccharides.....1000ppm

*This product contains equivalent of 5L of liquid seaweed extract per 100 kg. (0.5% w/w of Seawin's SeaGreen Extra)*

#### Physical Characteristics

Granular

#### Application:

150-600kg/ha

For application suggestions specific to your crop, please contact your local agronomist or Seawin's distributors.
