

# Granular NPK

18-2-21

## • ***NPK General purpose fertilizer with Seaweed chelating extract***

Seawin's biological enhanced compound **N:P:K 18-2-21** is a combination of Nitrogen, Phosphorus, Potassium and Seawin's Polysaccharides. These nutrients are in highly available forms to support crop health and yields.

### Product Features

- Promote fruit expansion and coloration, increase sweetness
- Make fruit size and color more uniform
- Promote soil aggregate structure
- Added Oligosaccharide to increase utilization rate of nutrition
- Assist plants to cope with environmental stresses

### Seawin's Advantage

Patented multi-step enzymatic extraction method extracts consistent and high quality Polysaccharide, which brings the following benefits:

- Natural chelating agent
- Soil buffering agent
- Bio-stimulant properties
- Reduces stress and aids recovery
- Improves soil structure

Packaging Sizes: 25kg, 1100kg

### Product Analysis

Nitrogen(N)	
as nitrate .....	17%
as Ammonia .....	1%
Total .....	18%
Phosphorus(P).....	2%
Potassium(K).....	21%

### Organic Inputs

Organic Matter.....	20%
Seaweed Polysaccharides.....	1000ppm

*This product contains equivalent of 10L of liquid seaweed extract per 100 kg. (1% w/w of Seawin's SeaGreen Extra)*

### Physical Characteristics

Granular

### Application

150-600kg/ha

For application suggestions specific to your crop, please contact your local agronomist or Seawin's distributors.
