Welcome to Metron North America

Metron Doors North America represents the expansion of a proven European leader into a dynamic and growing market. Backed by Metron S.A., a globally recognized manufacturer of elevators and elevator door systems headquartered in Greece, Metron NA brings over 25 years of engineering expertise, design innovation, and manufacturing precision to customers across North America.

From our regional operations in Phoenix, Arizona, we facilitate sales, distribution, and technical support for our complete range of swing, sliding, and folding elevator door systems. This presence allows us to offer faster lead times, localized project support, and tailored solutions for residential and commercial applications.

The staff at Metron NA represents more than 60 years of combined experience in the domestic elevator industry including extensive knowledge of regulatory requirements and code compliance across all 50 states and Canada. Metron NA represents the blending of European Craftsmanship and North American expertise.

Our mission is simple – to provide high-performance elevator door solutions that combine European craftsmanship with local service and responsiveness. Every product is designed to meet international quality standards and certified compliance with ASME A17.1, A17.5, CSA B44 and B355 safety standards while supporting the specific needs of architects, contractors, and facility owners in North America.

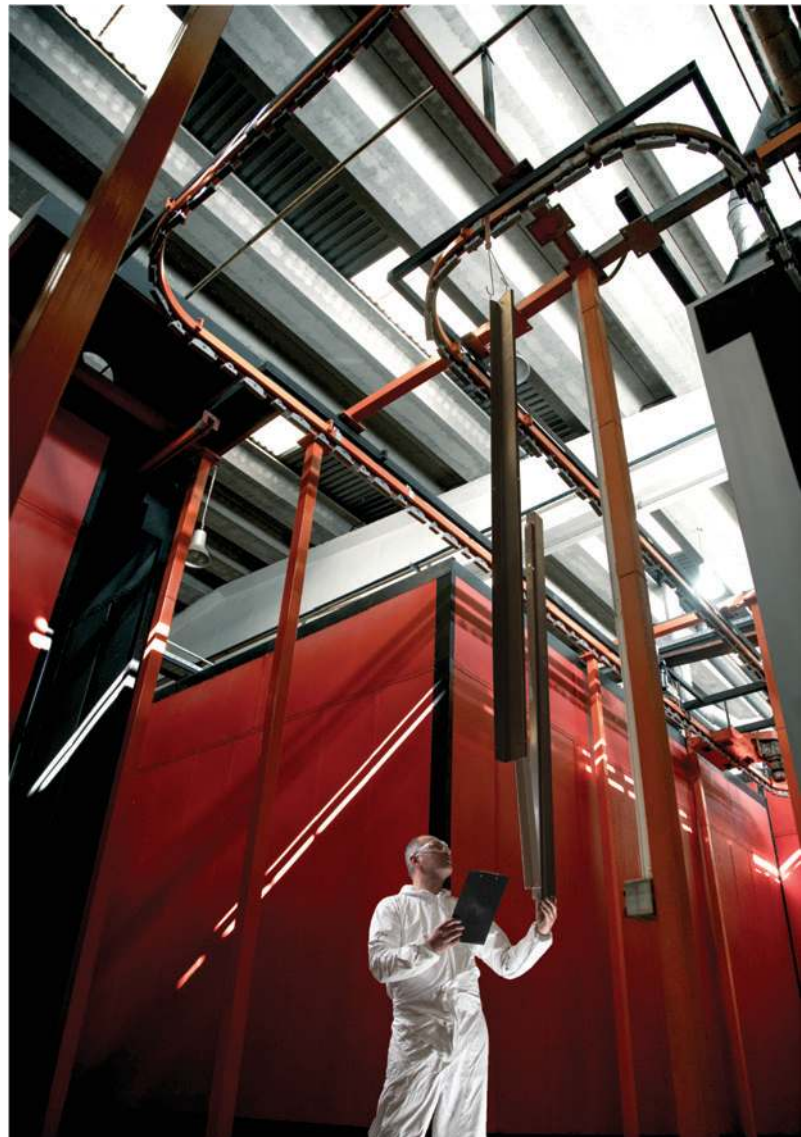

The details behind every Metron Door

With focus on safety, quality and aesthetics, Metron designs and produces unique elevator doors with high-tech equipment, and a refined elegance that lasts over time. Our perfect combination of cutting-edge precision engineering and a team of master designers and technicians means that every Metron door has unrivalled quality, incredible accuracy, outstanding design, stunning detailing, and top performance.

The 1st company that introduced Powder Coating Colors in Elevators

As a design leader, Metron has life-long experience and know-how in color technology. Every Metron elevator door is created with style in mind, and the door is its first impression. Today, Metron owns one of the biggest Powder Coating Departments in Europe with a fully automated, 985 feet, production line which ensures increased production capability, tremendous flexibility, precise control and unmatched quality over time.

Key Benefits of Metron Doors

Metron elevator doors offer safety, performance, durability and high aesthetics. Designed with ease of use in mind whether installing, maintaining or designing a space, Metron offers a solution to meet your needs.

A Design Truly Yours

Our great variety of colors, gives you the freedom to add your personal touch to each door to harmonize it with the ambience of the space.

Top Performance

Made of high-quality materials, Metron doors enjoy an extended lifecycle. Their high reliability and easy maintenance, makes them functional and look as good as the first day they were installed. They combine ultra-quiet performance with fast and smooth operation during opening and closing.

Safety First

Fully compliant with the ASME A17.1, A17.5 and the CSA B44 and B355 safety standards. Metron doors are designed to be part of a 3/4" – 4" clearance, compliance package.

Wide Range of Applications

Ideal solution for any type of building: Commercial and Public Buildings, and Residential Buildings.

Quick and Easy Installation

A Metron door is simple, quick and easy to install.

A modern interior space featuring a glass elevator door with a metallic frame. The room has a minimalist aesthetic with a brown leather sofa, a small table with a plant, and two large, white, U-shaped pendant lights hanging from the ceiling. The floor is made of large, light-colored tiles.

Design your elevator door to match your aesthetics

Build a unique and distinctive style for total harmony in your space with Metron. Discover our wide range of choices of door designs and colors to inspire you.

Configure your Door in just 2 steps!

- 1.** Choose a door model from our extensive range.
- 2.** Make it truly yours choosing the ideal colors from our great variety in our Powder Coating Color Collection.

We are with you for every step, giving you the freedom to adjust any door model to your needs and requirements. For special solutions, please contact Metron.

Powder Coating Color Collection

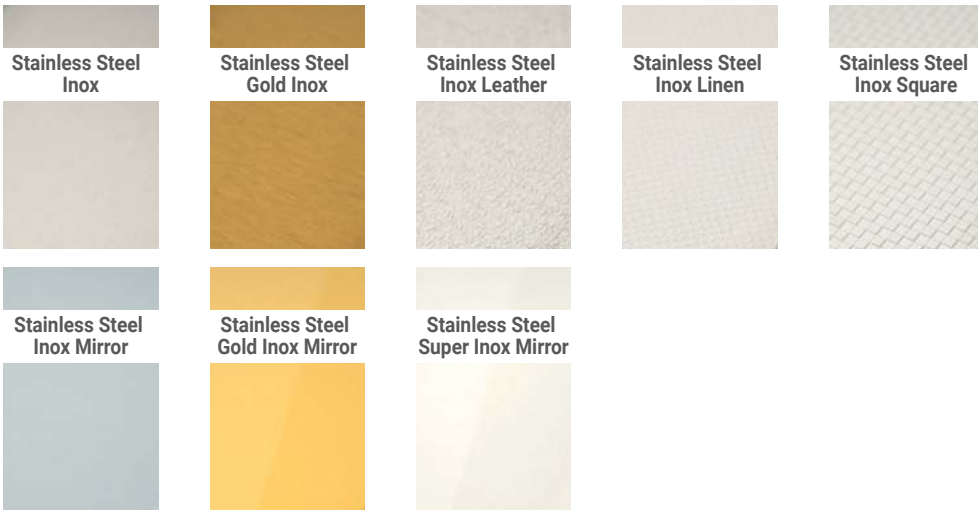

Discover our metallic sable powder coating colors that impress with their luxurious texture and high durability both indoors and outdoors. Specially created to reflect the light, they add this extra shine to a highly aesthetic design to upgrade even more the space's ambience. All colors are harmoniously combined with all construction industry materials (wood, aluminum, marble, stainless steel, etc.), to create your own personal design. Ideal for projects with high design requirements as their high quality is certified.
