LOSCO

Construction & Development

SERVICES OVERVIEW

Owner-operated construction services for excavation, demolition, trucking, drainage, and site support.

FEATURED SERVICES

EXCAVATION
Precision excavation for site preparation, utilities, grading, and foundations.

SITE WORK
Complete site development including grading, compaction, and earthwork.

DEMOLITION
Safe, efficient demolition of structures with careful planning and debris removal.

TRUCKING
Reliable trucking services for material hauling, deliveries, and site support.

DRAINAGE
Drainage solutions including trenching, pipe installation, and water management.

LAND CLEARING
Clearing and grubbing for commercial, industrial, and residential sites.

FOUNDATION EXCAVATION
Footings and foundation excavation with accurate dig levels and site readiness.

MATERIAL HAULING
Transport of aggregates, soils, sand, asphalt, and other construction materials.

ROLL-OFF DUMPSTER SERVICE
Yard roll-off dumpsters for debris, concrete, demolition, and cleanouts.

EQUIPMENT TRANSPORT
Safe transport of heavy equipment and materials to and from the job site.

REAL JOBSITE EXPERIENCE
