

Mechanical Gloves PG903

Product Code: PG903

The PG903 Mechanic Glove was designed for DIY enthusiasts who require exceptional sensitivity, cut protection, and comfort during home projects. Made without steel or fiberglass, the glove provides a soft, irritation-free feel for all-day comfort. With a reinforced thumb area, the PG903 offers increased abrasion resistance in high-wear zones, while the nitrile coating on the palm and fingers ensures a secure grip and durability. Its 18-gauge construction delivers maximum sensitivity and an ultra-light feel—ideal for precise work with tools, small components, or delicate DIY and renovation tasks. Perfect for DIY projects, furniture assembly, repairs, renovations, gardening, or mounting decorations, the PG903 Mechanic Glove combines cut protection, dexterity, and comfort for safe and efficient work around the home.
