

Mechanical Gloves PG902

Product Code: PG902

The PG902 Mechanic Glove was designed for professionals and DIY enthusiasts who require precision, comfort, and reliable protection. Its seamless nylon/spandex lining provides enhanced elasticity and a lasting fit, allowing the glove to move naturally with the hand and reducing fatigue during extended tasks. The palm and fingertips are coated with nitrile, offering excellent grip in oily or greasy conditions without compromising tactile sensitivity. With a 15-gauge construction, the PG902 delivers a lightweight feel and superior dexterity, ideal for precise handling of small components, tools, or delicate mechanical parts. Perfect for assembly, maintenance, or repair work, as well as DIY projects such as furniture assembly, screwing, drilling, painting, electrical installations, or smaller home improvement and renovation tasks, the PG902 Mechanic Glove combines skill, protection, and comfort for all manual tasks.

SPECIFICATION

MATERIAL OF LINER
