

All Work Gloves PG204

Product Code: PG204

The PG204 All Work Glove is designed for professionals who need both precision and protection across demanding work environments. With its fully dipped construction and advanced dual nitrile coating, this glove delivers reliable grip, comfort, and durability in wet, dry, and oily conditions. Made from a seamless 15-gauge polyester knit for a breathable fit that supports natural hand movement and reduces fatigue during extended wear. The palm is coated three-quarters with a smooth nitrile layer for consistent grip, topped with a sandy nitrile finish that enhances durability and traction for more secure handling. Its ultra-fine nitrile grip ensures high sensitivity and control, making it ideal for tasks that require both precision and rugged protection. The sensitive feel even allows for touch screen use! Whether you're in construction, assembly, maintenance, or general industrial work, the PG204 provides the versatility to handle it all.

SPECIFICATION

MATERIAL OF LINER

- Polyester
- Seamless Liner
