🔍 Programme Overview

This interdisciplinary study programme explores Beijing's rich cultural and technological resources. Built around a project-based learning framework, it integrates history, science, architecture, innovation, and cultural exploration through a structured three-stage process consisting of pre-learning preparation, in-depth field exploration, and a final research report.

Throughout the journey, students engage with both ancient heritage and cutting-edge technology, cultivating intellectual curiosity, critical thinking, and a broader global perspective.

😊 Activities

Historical & Cultural Exploration

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

✔ Highlights

Chinese Cultural Journey

This programme integrates imperial history, modern innovation, and hands-on cultural immersion into one cohesive academic experience.

Academic Excellence & Frontier Innovation visit

Students explore leading universities and tech enterprises, examining how AI, logistics, and innovation transform knowledge into future industries.

24/7 Student Wellbeing & Support

Our dedicated on-site team provides round-the-clock care and support, ensuring students feel safe, secure, and supported in both their studies and daily life.

🏠 Accommodation

We partner with carefully selected 4-star hotels known for their exceptional standards of comfort, cleanliness, and service. Each room is thoughtfully appointed to provide a safe and relaxing environment for students throughout their stay.

Amenities typically include a private en-suite bathroom, air conditioning, high-speed Wi-Fi, in-room entertainment, daily housekeeping, and essential toiletries. International power outlets and 24-hour hot water ensure convenience and comfort, allowing students to focus fully on their learning experience while enjoying a high-quality residential setting.

🛡️ Health & Safety

Students are supported by 24/7 trained staff, Welfare Managers, strong supervision ratios, and close links with local doctors and hospitals.

🚗 Transportation

Private coach/minibus for tours and fixtures.

🍴 Dining

All students receive breakfast, lunch and dinner, with many chances to taste delicious local cuisine.

✈️ Itinerary

Scan to view full itinerary

Day 1 – Arrival in Beijing & Historic Urban Exploration

International arrival, orientation briefing, and hotel check-in, followed by an afternoon visit to the Forbidden City and Tiananmen Square to explore royal spatial planning and ancient craftsmanship, with a local dinner to close the day.

Day 2 – Academic & Scientific Innovation

A morning visit to Tsinghua or Peking University, then an afternoon at the China Science and Technology Museum engaging with exhibitions on Chinese innovation, rounded off with a Peking duck dinner and group reflection in preparation for thematic research presentations.

Day 3 – Intelligent Cities: Logistics, Data & Autonomous Mobility

Morning at JD Logistics' Asia No.1 Smart Warehouse exploring modern supply chains and data-driven operations, followed by an afternoon at the Baidu Apollo Autonomous Driving Center examining high-precision mapping, environmental perception, and intelligent decision-making systems.

Day 4 – AI Frontiers: Innovation & Future Societies

Morning visit to the iFlytek AI Experience Center exploring real-world AI applications, then an afternoon dedicated to group discussion and final presentations, bringing together research findings and programme reflections.

Day 5 – Universal Studios Beijing

A full day at Universal Studios Beijing, with morning arrival, afternoon theme park exploration, and dinner at the park.

Day 6 – Departure

A morning closing event and farewell party, followed by departure transfers and programme conclusion in the afternoon.
