About Innovision

Innovision is an international advisory and management consulting firm. We are working on transforming the world's trade, investment, finance, and socio-economic systems. We offer research, technical assistance, and project management services to support governments, private sector actors, multilateral organizations, and civil society in designing, implementing, and evaluating inclusive and systemic solutions. Our work spans across regions, fostering South-South and South-North cooperation to identify and overcome barriers to an inclusive market, equitable trade, and shared prosperity.

Our Journey

Innovision Consulting commenced its operations in Bangladesh in 2008, propelled by a vision to establish a globally impactful company rooted in Bangladesh. Its inaugural assignment was a multi-year market system development initiative in collaboration with the DFID and SDC-funded Katalyst project, which played a pivotal role in shaping Bangladesh's seed market landscape. In 2009, Innovision embarked on its first international assignment in Afghanistan, marking its expanding footprint beyond national borders. Subsequently, the company was formally registered in the UK in 2014 and in Nigeria in 2019. As of 2025, Innovision proudly celebrates 17 years of impactful service and achievement, having successfully completed 500+ projects in 22 countries around the world.

Our Strengths

Trusted And Accountable Partner
for nearly 500 assignments and 170+ clients

Managing Complex Projects
with stakeholders across government agencies, private sector companies, and development partners

Addressing SDG

Our works primarily focus on SDG 17 – Strengthen the means of implementation and revitalize the global partnership for sustainable development. Through trade facilitation, financial inclusion, multistakeholder partnerships and SDG integration support, we impact millions of households on the issues of poverty (SDG 1), hunger (SDG 2), health and wellbeing (SDG 3), gender equality (SDG 5), clean water and sanitation (SDG 6), affordable and clean energy (SDG 7), decent work and economic growth (SDG 8), inequality (SDG 10), sustainable cities and communities (SDG 11), responsible consumption and production (SDG 12), climate action (SDG 13), life below water (SDG 14), peace, justice and strong institutions (SDG 16), and partnerships for the goals (SDG 17).

Worldwide, **unequal access to basic services**, affect marginalized communities, particularly **women**,

Women face systemic barriers in accessing education, finance & employment

Poor healthcare and nutrition access cause disparities in children & overall well-being

Poor sanitation and hygiene result in disease & preventable deaths

Gender-based violence and inadequate protection leave women & children vulnerable

this undermines **equitable development** calling for the **urgent need for interventions...**

40%

have no access to improved sanitation in the world (WB)

9 in every 10

employed women in low-income countries work in the informal sector (UN Women)

1/3rd

of women worldwide experience physical or sexual violence (UN Women)

690

million

people are food insecure globally (WFP)

Innovision's portfolio for Gender and Basic Services ensures **inclusivity, and equity**, in all dimensions of the social sphere and improving **basic services** through **women-focused strategies and interventions** partnering with **private sector, governments, local and Int. NGOs, aid agencies and civil society** for sustainable development.

Focus Area

Gender Equity and Social Inclusion (GESI)

Water, Sanitation and Hygiene (WASH)

Health and Nutrition

Education & Economic Opportunity

Notable Work

USAID Feed the Future: Bangladesh Adolescent Nutrition & Hygiene Program

We are solving the systemic challenges to adolescent nutrition for more than 100,000 girls and boys and their family members. Our market systems approach ensures that the Department of Secondary & Higher Education (DSHE), local & national private sector actors and start-ups are able to sustain and scale products & services on nutrition, water, sanitation, hygiene for girls & boys through school-based nutrition programme called Surjo Club.

Women in Manufacturing Leadership Accelerator: INDONESIA

Women dominate the labour force in the low stream works in the shoe factories in INDONESIA. They have low presence in higher leadership positions in the factories. Innovision is supporting IFC's Gender and Economic Inclusion Group and a global power to train and empower more women to graduate to higher and aspirational leadership positions in the factories through a blended learning approach.

Needs Assessment on Justice for Children in Rohingya Camps in Bangladesh

Innovision conducted a study addressing vulnerabilities faced by Rohingya children, such as abuse and trafficking, necessitating urgent legal assistance. Our findings have guided practical recommendations to improve the justice system, aligning with the Children Act of 2013 and international standards, to ensure a responsive and equitable framework.

Chemonics International: Advancing Universal Health Coverage

In collaboration with USAID Bangladesh and Chemonics International, we conducted a study on "Brand Perception Analysis for Surjer Hashi Network," aiming to support transition to a sustainable, gender-sensitive social enterprise. Field data from 32 clinics in Bangladesh provided insights on service quality, client satisfaction for strategic enhancement.

Gender-based Behavioral Change Campaign

Innovision, in collaboration with Purple Wood & Futuresky, organized Private Sector Advocacy Events in 10 Upazilas in Bangladesh under UN Women's WING Programme. In Manikganj, Cox's Bazar, Jessore, Kurigram & Thakurgaon Women Entrepreneurs discussed business challenges and the need to address mental health issues alongside economic empowerment.

Notable Work

Understanding Key Barriers to Female Labor Force Participation: Sexual Harassment in Workplace

In this study, we are assessing the prevalence, causes, and impacts of workplace sexual harassment in Bangladesh's emerging sectors, particularly in agro-processing and healthcare. Through policy analysis, stakeholder consultations, and mixed-method research, we are evaluating existing measures, identify gaps, and develop actionable recommendations to strengthen prevention, protection, and response mechanisms for safer work environments.

Business Case Research on the Gender x Climate Nexus in Bangladesh

We are building a business case for advancing women's participation in Bangladesh's green economy by highlighting their roles as leaders, employees, and entrepreneurs in climate-priority sectors. Through mixed-method research, the study identifies gender gaps, map opportunities, and recommend concrete, gender-smart actions for the private sector. It demonstrates how women can drive innovation and solutions in climate action and promote inclusive, private sector-led green growth aligned with national priorities.

Development of a Vision and Strategy for the Dutch Water Sector in Bangladesh Beyond ODA

In collaboration with EKN, we assessed the future scope of Delta Technology activities in Bangladesh's water sector, with a specific focus on potential Dutch involvement. The study aimed to understand emerging opportunities, areas of collaboration, and strategic directions that align with Bangladesh's development priorities as it approaches LDC graduation. The goal was to inform a vision and actionable strategy for the Dutch water sector to operate effectively and sustainably in Bangladesh, fostering partnerships based on mutual benefits and economic cooperation.

Gender Analyses of Economic Empowerment, Resilience and Livelihood

We are conducting a gender analysis of the economic empowerment, resilience, and livelihood development of Rohingya refugee women and women from the host community in Cox's Bazar and Bhasan Char. The study examines how gender norms, roles, and barriers impact women's access to and participation in economic opportunities and resilience-building efforts. It also identifies gaps, challenges, and enabling factors to inform more gender-responsive humanitarian and development interventions.

Selected Work over The Years

Water Aid: Comparative Study on Feasibility and Acceptability of MHM Products in Bangladesh

Study on Gender Gaps in adaptation initiative in the Southwestern Coastal Region in Bangladesh
