## Company Overview

A Swiss company founded and managed by physicians with over 20 years of clinical experience, based in Brig. Our goal is to supply hospitals and cardiac centers with **high-quality medical consumables** for invasive cardiology **at fair and sustainable prices**.

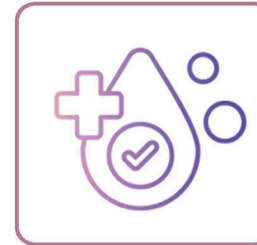

We reduce excessive material costs with carefully tested, clinically validated products— **without compromising on quality, safety, or medical freedom of choice**.

## Our offer

- Cardiology consumables with a **Swiss lowest price guarantee**, equivalent to the currently established products in invasive cardiology
- Products that have been clinically tested by experienced cardiologists at **the Valais Heart Center in Sion** and assessed as **equivalent or superior** in terms of quality and handling.
- Storage and distribution via a **Swissmedic-certified logistics partner in Conthey (Valais, Switzerland)**
- **Delivery is handled by our logistics partner**. Orders are usually delivered within a few days, but no later than within a week.

➤ **CE Certified**

➤ **Tested Quality**

➤ **Fair Pricing**

➤ **Tailored Support**

➤ **Swissmedic-Aligned Storage & Delivery**

## Interested in sustainably optimizing your material costs?

- No unnecessary and time-consuming visits from sales representatives
- Even more attractive terms thanks to bundled procurement
- Quick availability for repeat orders
- Planning reliability through storage options

### How It Works

#### 1. Contact Us

Get in touch with us. We will provide detailed information about our products and available options.

#### 2. Joint Planning

Together, we define the order quantity – with or without storage in our logistics center.

#### 3. Order Bundling

We consolidate orders from multiple customers to optimize purchasing conditions.

#### 4. Delivery

**First order:** Delivered directly from the production facility  
Lead time: approx. 5-8 weeks

**Follow-up orders:** Depending on the agreement, delivery from our warehouse  
Lead time: 1-2 business days
