# FAQS

Who can participate? ▼

How much does it cost to attend? ▼

How many people can be on a team? ▼

What if I've never been to a hackathon or worked with Chainlink before? ▲  
No worries! It's helpful to have some software engineering experience, but it's not a requirement. Projects also often need designers, front end engineers, project managers, and more. We will also have talks, workshops, and mentors to help you with your project. This is a great place to learn all things blockchain and smart contracts.
