

Watson Logistic – Safety & Compliance Overview

Safety & Compliance Overview

Safety Mindset:

Watson Logistic operates with a safety-first, compliance-first approach.

Our goal is to be a long-term, low-risk carrier partner for shippers and brokers in the Midwest region.

Driver Practices:

- Pre-trip and post-trip inspections documented daily
- Focus on defensive driving and speed management
- Respectful, professional conduct at customer facilities

Compliance Practices:

- Adherence to FMCSA regulations and hours-of-service rules
- Attention to weight limits, securement, and route planning
- Willingness to align with shipper/broker-specific requirements

Equipment & Securement:

- 26 ft box truck with E-track for securement of palletized freight
- Regular maintenance schedule to reduce roadside issues and delays

Communication:

- Direct contact with dispatch/driver for updates
- Proactive notification if weather, traffic, or dock delays affect timing
