REEF

SMART

BATCH

DATE

Directions of use

Reef Smart dilutes in water and is suitable for foliar, soil, and irrigation water application. Apply at a total rate of 50 L/ha per crop cycle. For best results, split into two applications of 25 L/ha each, spaced 6–8 weeks apart, but not exceeding 8 weeks between applications.

Foliar Application

Fill half the spray tank with water, begin agitating and add the recommended amount of Reef Smart with remainder of water and spray solution. A minimum spray volume of 200L/ha is recommended.

Soil Application

Although Reef Smart delivers the best results when applied as a foliar spray, it can also be applied to the soil. Soil applications can be made by mixing with soil-applied nutritional products, through direct sprays, side-dress treatments, via irrigation systems, or by any other method that effectively delivers Reef Smart to the soil.

Storage: Store above 10 degrees Celsius. Shake well before using it. Store in original container only. Keep containers tight closed when not in use. Store in a cool, dry well-ventilated area, preferably in a locked storage area away from children, feed and food products.

Handling: Avoid breathing product mists. Avoid prolonged or repeated skin contact. Avoid eye contact. Wash hands thoroughly after handling this product.

Disposal: DO NOT reuse container. Triple rinse (or equivalent), adding rinse water to spray tank, then offer for recycling or reconditioning.

Safety Directions: Avoid contact with Eyes and Skin. Wear impervious protective clothing, including boots, gloves, lab coat, apron, overalls, as appropriate, to prevent skin contact can face shield or goggles, if needed.

First Aid: If in Eyes: Flush with clean water for at least 15 minutes. If irritation persists, get medical attention. If on skin: Remove contaminated clothing. Wash thoroughly with soap and water. If irritation persists, or if rash develops, get medical attention. If Swallowed: Do not induce vomiting, seek for medical attention. Never induce vomiting or give anything by the mouth to an unconscious person. If Inhaled: Remove to fresh air. If irritation persists, get medical attention.

Not classified as Hazardous according to the Globally Harmonised Systems of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.
