****Props Unloading** & Floor Folding**

Prop trucks need to turn into campus on **TIGER LN.** off of **SUMMERHILL ROAD.** Once you turn onto Tiger Lane, you will follow the route highlighted by the green arrows on this map to drive your equipment truck by the gym doors. Equipment will go straight into the gym in our holding area. Trucks will need to exit immediately to one of our designated parking areas.

Floor re-folding will not be available for this competition. Performing ensembles will fold at the end of their performance and take it straight to their floor cart in our gym holding space.
