HOW TO GET NOMINATED

DEFINING THE CORE: WHAT **RESET** STANDS FOR

REGENERATION

Rebuilding rather than just sustaining. Designing strategies that actively replenish natural, social, and economic systems.

ENTREPRENEURSHIP

Driving active, creative agency. Empowering leaders to translate systemic insights into tangible, thriving ventures.

SYSTEMS

Mapping complexity. Moving beyond isolated symptoms to understand the interconnected dynamics of our global economy.

ETHICS

Refusing easy compromises. Introducing deep psychological, philosophical, and moral inquiry into critical executive decision-making.

TRUST

Rebuilding the relational glue. Fostering psychological safety, peer accountability, and transparent alliances to unlock systemic, collective influence.

Something is missing

You are worried about the state of the world,
you have the degree, the career, the title, the
salary.....

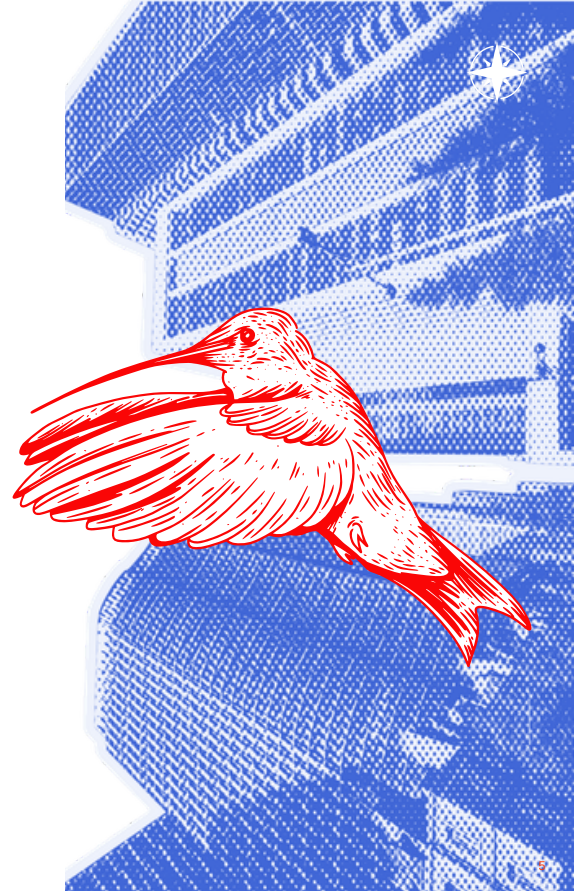

The systems we have built are becoming brittle. Economically, ecologically, socially, they are as much part of the problem as the solution. You can feel it. The urgency is real. The gap is widening. The world is changing fast, and moving in a direction that doesn't feel right, nor is it aligned with a future you want to be a part of.

Still, you don't want to give up!

You just need the space, the tools, and the people to make it real.

This feeling is the beginning...

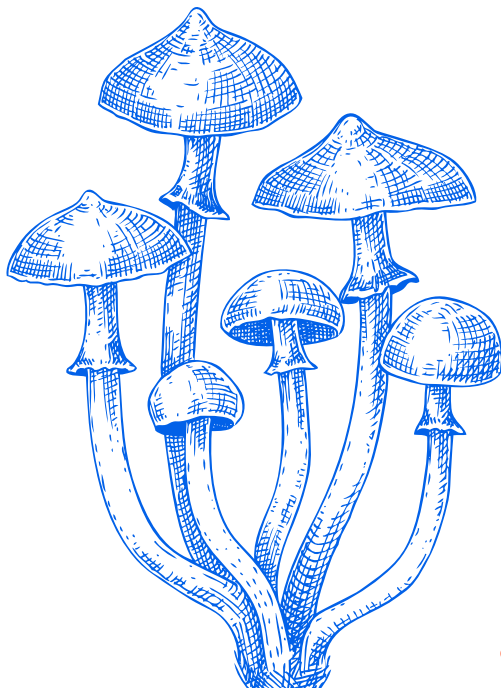

RESET is the next step

A transformative journey that gives you the courage, the guidance, and the community to make a real difference.

This is not a program about just solving problems. We all know it's more complicated than that. It is about sitting with them, digesting them, discussing them, and letting them inspire you to lead differently.

Reset takes you deep into the systems shaping our world: from natural systems and technology, to finance, governance and trade. Each theme will be explored through the lens of your personal agency and what it means to be a leader in these turbulent times, using psychology, ethics and interconnected thinking to also ask the deeper questions, refusing to settle for the standard first-order answers.

Throughout this journey, you will be guided by leading experts and practitioners.

You will meet leaders who have already made the transition, people who are rewriting the rules, one decision at a time.

How it works

A 7-MONTH HYBRID JOURNEY

The journey is articulated around 3 in-person, immersive gatherings: five days of deep work, personal exploration, real encounters and shared experiences.

Each month, the cohort dives into one theme through two 2- to 3-hour online sessions, designed to fit around your work life.

Personalized mentoring and peer coaching accompany participants throughout the program to help turn reflection and insight into lasting personal transformation.

7 MONTHS

3 IN-PERSON GATHERINGS

6 THEMES

+ MENTORING &
PEER COACHING SESSIONS

THIS IS NOT PASSIVE LEARNING

It is collective sense-making, personal leadership work, and peer-driven accountability. Every participant is mentored throughout, because real transformation starts with introspection, not instruction.

This program will not give you a manual.

It will give you a mirror and a community of peers willing to look into theirs too.

It asks you to slow down, sit in the discomfort, and let the hard questions do their work.

WHO IS THIS FOR?

1 Leaders with a voice inside them

You are in a leadership position, in business, government, civil society, or your own venture, and you feel the growing gap between the system you operate in and the leader you want to be.

You are courageous

You are in a decision making position

2 People who want to act

You are ready to move beyond analysis and good intentions. You want to lead change in a meaningful, grounded, and lasting way, and you need guidance on how to start.

You have at least a Bachelor's degree

3 Builders of a different future

You believe the current systems are falling short. You feel the urgency. And you are looking for a community of peers who share that conviction and are ready to act with integrity.

You have a clear motivation

You are between 30-40 years old

4 Seekers of depth and connection

You are not looking for just another certificate or networking event. You want a real transformation, a shift in how you think, lead and show up in the world.

Grow to know who you are as a leader

Not a role, not a title. A clear, grounded sense of your own values, your own voice, and the kind of leader you are choosing to become.

Gain clarity and see the systems clearly

The economic, ecological, and political forces shaping our world - you have been living inside them. For the first time, you will understand them, question them, and know where and how you can move them.

Develop the courage to act

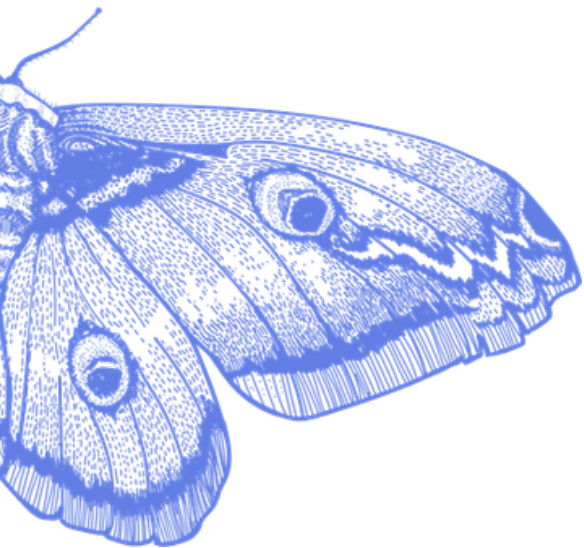

Not just the intention. The tools, the resilience, and the community to move from awareness to real action, even when it is uncomfortable, even when the system pushes back.

**HOW IT WILL
CHANGE YOU:
FROM THE
INSIDE OUT**

HOW IT WILL CHANGE YOU: FROM OUTSIDE IN

Challenge and expand your leadership

Every participant is accompanied by an experienced guide throughout the program, someone who challenges you, holds you accountable, and walks the path with you.

Develop your agency beyond just being a part of the system

You already know the systems. Now you will see through them. Each theme is explored through expert-led sessions and open discussion, not to explain what you already understand, but to challenge the assumptions underneath it.

Become a part of a greater community, committed to act

As Prigogine famously said: “when a complex system is far from equilibrium, small islands of coherence in a sea of chaos have the capacity to shift the entire system to a higher order.” This is your island!

YOUR JOURNEY — 2027

APR

Kick Off - Making Waves
Paris + ChangeNow
Fri 23 - Fri 30

JUN

Theme:
Technology

Online sessions on Tuesdays & Thursdays at 17:00

01.

SETTING THE STAGE

Paris | 23 - 30 APRIL

- Introductions & community building
- Brutal honesty, the state of the world
- Beginning the personal leadership journey
- Encounters with inspiring leaders, local communities & businesses who are rewriting the rules
- Peer groups & mentoring
- ChangeNow conference (3 days)

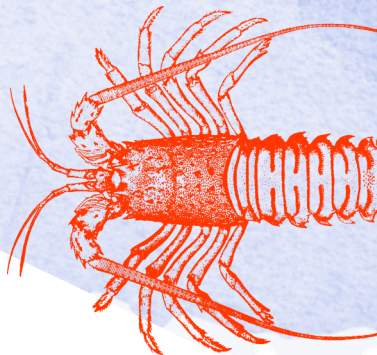

02.

CLOSING & FELLOWSHIP

Paris | 11 - 20 NOVEMBER

- Connecting to nature & local communities
- Encounters with leaders driving change: in business, civil society & beyond
- Pledge to action & fellowship
- Graduation & next steps

THEMATIC SESSIONS. GOING DEEPER

01 NATURAL SYSTEMS

Understanding our relationship with the natural world, and what it means to lead within planetary boundaries rather than against them.

02 TECHNOLOGY

Exploring how technology is reshaping power, work, and human connection, and where leaders must draw the line

03 LEADERSHIP & GOVERNANCE

Examining how institutions, organisations, and individuals lead in a world where trust is fracturing and old models are failing.

04 FINANCE & FINANCIAL SYSTEMS

Questioning who creates value, who captures it, and how money can be redirected toward a different kind of future.

05 TRADE & EXCHANGE

Looking beyond supply chains and markets to understand the human, ecological, and political cost of how we trade.

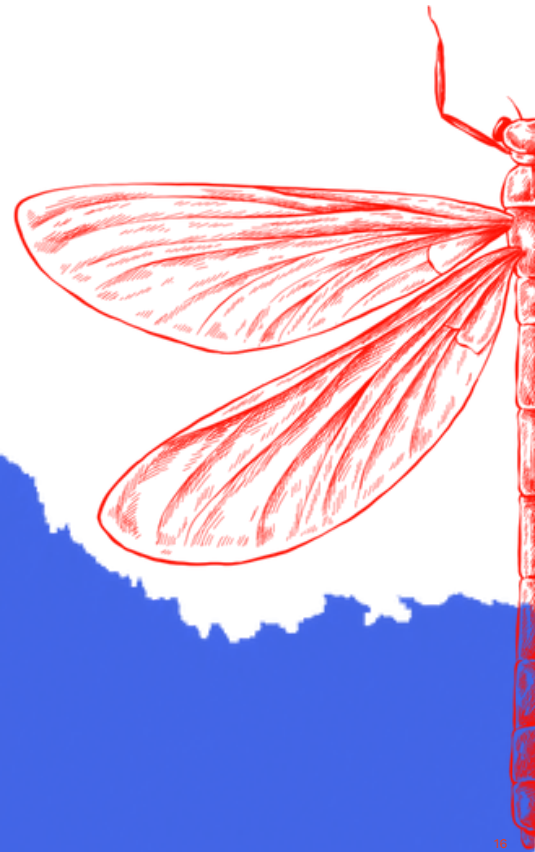

06 REGULATION & GOVERNMENT

Understanding the role of policy and public power in shaping the systems we live in, and where citizens and leaders can intervene.

EMBRACING QUESTIONING AS A GUIDING PRINCIPLE

because the challenge is not just technical...

- Where are the ethical tensions and impossible choices?
- Who holds the power, and who calls the shots ultimately?
- What do our institutions and democracies do with this?
- What mindset does this require of a leader?
- Who creates value here, and who captures it?

WHY RESET AND NOT ANOTHER PROGRAM?

We don't teach you about problems

We don't teach you about problems. We ask you to sit with them. Most programs give you frameworks. We ask you to first understand, feel, and let the problem change how you think.

We use multiple lenses — not one

Business, political, equality, psychology, ethics, ecology, economics... Because real change requires more than one way of seeing.

You will learn from people, not just experts

Inspiring professionals leading with integrity, indigenous communities, local changemakers, people whose way of seeing the world will challenge everything you thought you knew.

You will be mentored — during and after

Every participant is guided throughout the program and supported beyond it, because the pledge you make at the end is just the beginning.

Pay it forward

We ask you to pay it forward. This is not a program you complete. The 7-month phase is the formal learning and introspective program.

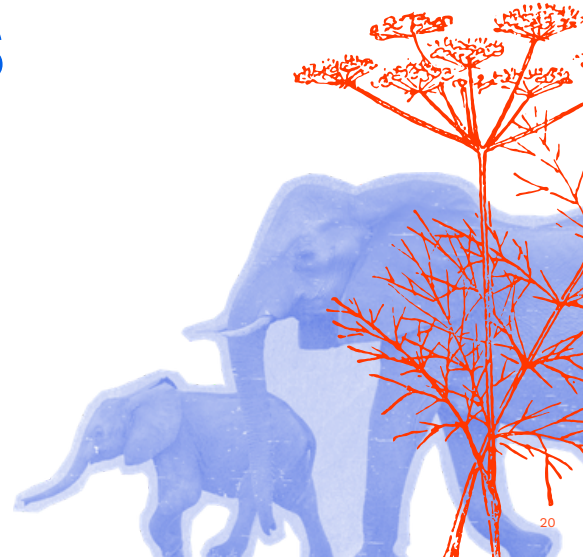

After this, you remain active in a shared community where your commitments continue to be developed and supported by it. There is no endpoint, only ongoing evolution of the impact your leadership can have.

Join the world's deepest community of change-makers

Progressio Foundation has been building a 'society' of peers since 1989, seniors and juniors building thriving ecosystems, enterprises and initiatives around the world. Some 50,000 leaders are in this community. As a RESET invitee, you will have access to a subset of these peers - those who are eager to connect with, and learn from, you.

Our Background

Progressio Foundation Founded in 1989 in Rotterdam by Marcello Palazzi (alongside Paul Kloppenborg and Pjotr Hesselings), Progressio is a Dutch nonprofit that finds, connects, and supports entrepreneurs driving human progress.

Over 35 years, it has been at the center of 35+ ventures and 350+ initiatives, engaging 35,000+ global decision-makers. Key focus areas include civic economy, B Corps, regenerative business, and impact investing. Palazzi co-founded B Lab Europe in 2013 and has worked with the UN, Vatican, and world leaders on responsible business agendas.

École des Ponts Business School Founded in 1987 by Célia Russo, the school is the graduate business arm of the prestigious École nationale des ponts et chaussées (est. 1747, part of Institut Polytechnique de Paris).

With a motto of "In business to make a better world," it was the first school in France to offer an English-language MBA. It offers Executive MBA and DBA programs focused on leadership, innovation, and sustainability, with 7,000+ alumni worldwide. Accredited by AMBA and AACSB, it is currently led by Dean Alon Rozen.

Every year, more than 40,000 leaders, entrepreneurs, investors, and changemakers gather at the Grand Palais in Paris for three days of solutions, encounters, and collective energy. ChangeNow is the world's largest summit for positive impact, a place where ideas meet action, and where the people rebuilding the world come together.

We chose to make it part of Leadership: RESET for a reason.

After two days of deep reflection and leadership work, we bring you into that room. Not as a spectator. As someone who has just spent two days questioning everything, and is now standing in the middle of the largest gathering of people trying to fix it.

ORGANISATION)

The only leadership program you cannot apply to...

RESET is by nomination only.

If you feel called to this program,
reach out or ask someone who
knows your work to put your name
forward.

WHY DO YOU HAVE TO BE NOMINATED?

Because...

- A community is only as strong as the people in it.
- The challenges we face demand more than good intentions; they require leaders who are truly ready to act.
- Leadership is not only something you claim for yourself. It is something others recognise in you.
- Somewhere, someone who knows your work believes you are ready to step forward.

... and because the time for waiting is over.

HOW TO GET NOMINATED

Someone has to believe you belong here. Sometimes that person is you.

1. Fill out the [Nomination Request Form](#). A Nomination Form will be sent to your nominator.
2. As soon as the nomination form is submitted, we will contact you to invite you for an online conversation.
3. If the form has not been filled out, we will inform you by email.
