dashr.ai PLATFORM OVERVIEW

Security Intelligence & Compliance Monitoring

Document Type:	**Platform Overview**
Version:	**2.0**
Included With:	**All Report Ready 90 Programs (Year 1 Free)**
Pricing:	**$400 - $2,000/month after Year 1**

PLATFORM OVERVIEW

dashr.ai is Careful Security's proprietary security intelligence platform that provides real-time visibility into your security posture and compliance status. Included free for Year 1 with all compliance programs, dashr.ai helps you maintain continuous compliance and stay audit-ready.

KEY FEATURES

Feature	Description	Business Value
Security Score	Real-time posture grade (A-F) with trend analysis	Track improvement over time
Compliance Dashboards	Progress tracking for SOC 2, ISO, HIPAA, PCI	Always know audit readiness
Risk Register	Centralized risk tracking with scoring	Prioritize remediation efforts
Evidence Collection	Automated evidence gathering and storage	Reduce audit prep time 60%
Vulnerability Tracking	Integration with scanners, MTTR metrics	Close gaps faster
Alerts & Notifications	Real-time alerts for compliance drift	Catch issues early
Executive Reports	Board-ready reports and KPI dashboards	Communicate with leadership

DASHBOARD MODULES

Security Score Dashboard

Your security score (0-100) is calculated from multiple factors including: control implementation rate, vulnerability count and severity, compliance coverage, risk posture, and incident history. Track your score over time and benchmark against industry averages.

Compliance Progress

Visual progress bars for each framework showing: controls implemented, evidence collected, gaps remaining, and estimated time to audit-ready. Supports SOC 2 Type I/II, ISO 27001, ISO 42001, HIPAA, PCI DSS, and CIS Controls.

Risk Register

Centralized risk management with CVSS-style scoring, owner assignment, due dates, and status tracking. Heat map visualization shows risk distribution by likelihood and impact. Integrates with your risk assessment deliverables.

Evidence Library

Organized evidence storage mapped to framework controls. Upload evidence manually or connect integrations for automated collection. Version history and audit trail for all evidence. Auditor access portal for seamless audit support.

INTEGRATIONS

Category	Integrations
Cloud Providers	AWS, Azure, Google Cloud
Identity	Okta, Azure AD, Google Workspace
Vulnerability Scanners	Qualys, Tenable, Rapid7
Endpoint Security	CrowdStrike, SentinelOne, Microsoft Defender
SIEM/Logging	Splunk, Datadog, Sumo Logic
Ticketing	Jira, ServiceNow, Zendesk
HR Systems	Workday, BambooHR, Rippling

PRICING

Tier	Users	Monthly	Annual	Best For
Starter	Up to 50	$400/mo	$4,000/yr	Small teams, single framework
