3. PUBLIC PROFILES; USER DISCLOSURES

3.1 Public Profiles

StupidFish permits you to create a public profile that may function as a digital resume. If you elect to make your profile public, the information you include in your public profile may be accessible to other users and visitors of the Platform.

Search engine indexing. Public profile pages may be indexed by search engines and may appear in third-party search results depending on Platform configuration and third-party indexing practices. We do not control third-party search engines or caches. Even after you edit or remove information from your public profile, copies of that information may remain visible for a period of time in cached or archived pages controlled by third parties.

3.2 You Are Responsible for What You Share

You are solely responsible for the content you choose to submit, publish, or otherwise make available through the Platform. If you choose to disclose Personal Information in your public profile, you do so at your own discretion and risk.
