AMAZING BLADES

Landscaping

Tis the season of the weeds. While the grass is growing more, so are the weeds. Rest assured, our lawn application #4 has a post emergent weed control. This should help with your broadleaf weeds such as clover, lespedeza, mimosa, and dandelion. We started applying lawn app #4 mid-May. Due to the application containing liquid iron, it will also help green up the lawn if you are currently experiencing any yellowing of the lawn. If we haven't gotten to you yet, we will shortly. Like all of our lawn applications, please allow a couple of weeks for it to do its job, after applying.

Now that it's warmed up and the grass is out of dormancy, any areas that have not come back from winter kill can be sodded. If you are interested in having these areas sodded or any other area done, we recommend getting on the waitlist now, as we are currently 4-6 weeks out on our waitlist jobs.

As we are applying lawn apps, we have noticed a good amount of lawns needing a fungicide treatment. If you are on our 8- application lawn package, start considering switching to our premium monthly lawn apps. There are preventatives and fungicides included in this package. This package also includes an insecticide for chinch bugs and grub control.

As it gets hotter, the grass will start growing more. Many customers start off with bi-weekly mowing and as it gets hotter and their grass grows more quickly, they realize that

mowing is not enough for them. If you find yourself in this situation, please give the office a call. We can quickly change you over from bi-weekly mowing to weekly mowing.

SHRUB TRIMMING

Shrub trimming has begun. We are working as quickly as we can to get to everyone and fit as many shrub trimming customers in each day as we can. Please remember that we do not schedule shrub trimming, we continue to go down the list each and every working day. If you have our shrub trimming package, you are on our list, and we hope to get to you shortly. Please keep in mind we will perform a standard trim on all bushes, unless you notify the office that you would prefer something different. We trim the palms during the 2nd shrub trimming service, which is typically mid summer.

IRRIGATION SERVICE

If you haven't gotten on our wait list for irrigation services to have your run schedule adjusted, call us today to get on the list. If you have the irrigation package with us, there is no need to call, we will automatically come out to you and make adjustments on your mid-season check.

REMINDERS AND UPDATES

-We are still working our way down the list for shrub trimming.

-Please remember to clean up any feces in the yard from your furry friends so our crews can maintain the yard for you.

-Speaking of furry friends, we recommend you wait 2 hours after we apply a lawn application before you let your pets out on the yard.
