shrub trims- clean ups-
armyworms and more....*

LAWN APP 6

Lawn app #6 is next on our list for our lawn app customers with the package. It contains a granular fertilizer. For our Premium Monthly Lawn App customers, your treatment for this month will include Diamond Grow and an insecticide, which will prevent armyworms.

BROWN PATCH

If you had brown patch last year, you may want to cut back your irrigation and pre-treat with a fungicide.

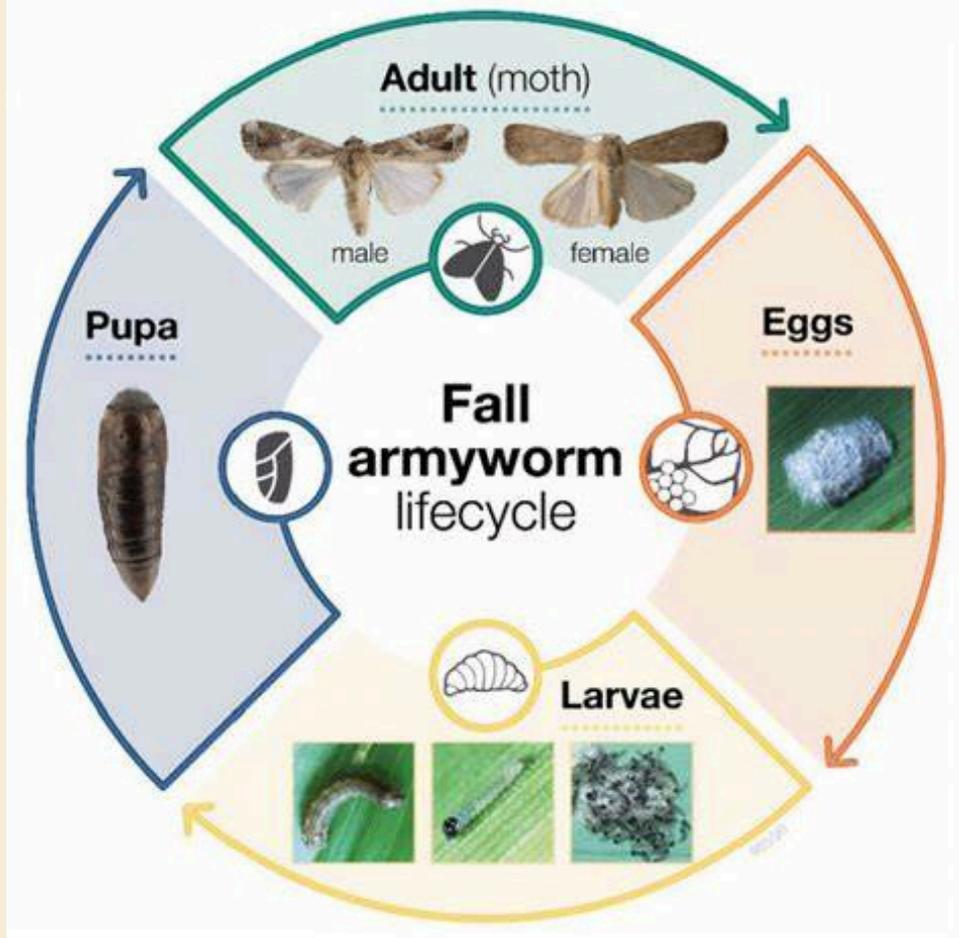

SHRUB TRIM

We will soon begin making our way down the list to perform the last shrub trimming of the year for our shrub trim customers. If you want something specific, please notify the office, otherwise the crew will perform a standard trim. If you do not have the shrub trim package with us, it's not too late. Call or email the office to get a quote today.

CONSIDER UPGRADING YOUR LAWN APPS

Were you a new lawn app customer this year and started with our standard 8 app package? Were you an old customer who needed extra fungicides or insecticides this year? Has your grass experienced bare or thin patches? If you answered yes to any of these questions, you should consider upgrading to our premium monthly lawn app package. With this service, we are out walking your property once a month, applying treatments to your yard. This package includes growth regulators, insecticides, fungicides and spot treatments for weeds. Save your time and let us make your yard great again!

THE ARMYWORM LIFE CYCLE

If you did not do a preventative for armyworms this summer, it's not too late. Call our office today to get a preventative treatment. It doesn't hurt to familiarize yourself with these turf damaging insects. Check out their life cycle above, to see what they look like during every stage.

FALL CLEAN-UPS

Fall is quickly creeping up on us. Have you been putting off your fall yard clean up? Call us today to get added to our waitlist.

“

A beautiful lawn doesn't happen by itself

Don't forget about those landscape beds. Call to get added to our list for fall mulch or pine straw installations.
