

HAVE YOU SEEN ME?

On Jan 31, 1956, a B-25 bomber plane crashed in the Monongahela

Despite decades of searches, not a trace of the plane has ever been found. Local lore claims it was secretly removed from the river that same night. If you saw anything on the evening of January 31 or the early morning of February 1, 1956 — or know someone who did — we want to hear from you. Share your story at monbomber.com.
