FD-01 METAL LINE

Modern interior doors designed for your luxury home. Crafted from premium Italian wood with delicate metallic lines, this interior door offers a touch of understated luxury. It is the perfect choice for bedrooms, internal entrances, and high-end villas

FD-02 AXIS DUO

a modern interior door designed with clean geometry and balanced proportions. The dual horizontal lines create a contemporary architectural look, finished with high-spec wood materials and precise detailing ideal.

FD-03 **LINEAR**

A contemporary design with elegant vertical lines that reflect refined simplicity and quiet luxury. The Linear door model features a balanced texture and a modern finish, making it a perfect solution for luxury interior doors.

FD-04 **CROSSLINE**

A contemporary design with refined horizontal and vertical lines that create a distinctive architectural rhythm and visual depth. The Crossline door model features precise panel divisions and a balanced texture, offering a strong yet elegant presence.

FD-05 **SERENITY STRIA**

A refined design with delicate vertical lines accented by a central metallic strip, expressing calm elegance and contemporary luxury. The Serenity Stria model blends warm wood textures with a subtle metallic detail, creating a serene yet distinctive presence ideal

FD-06 **SAND WAVES**

A refined design inspired by flowing sand waves, featuring smooth curved lines complemented by an elegant metallic accent that conveys calm sophistication and modern luxury.

FD-07 CHEVRON

A refined geometric design based on an architectural Chevron pattern, where intersecting lines and precise angles create visual depth and structured movement. This modern interior door features a carefully balanced arrangement of engraved lines,

FD-08 SILENT CUT

A contemporary design with refined horizontal and vertical lines that create a distinctive architectural rhythm and visual depth. The Crossline door model features precise panel divisions and a balanced texture, offering a strong yet elegant presence

FD-09 **QUADRO**

The Quadro model represents modern interior doors through precise geometric divisions and clean linear detailing that create visual balance and architectural clarity.

FD-10 **GEOMETRIC HARMONY**

The Geometric Harmony door embodies modern interior door design through carefully balanced geometry and intersecting lines that enhance architectural expression.

FD-11 STRIPES

The Stripes model introduces modern interior door design through vertical linear detailing that adds visual depth and a sense of height to interior spaces.

FD-12 METAL LINES

The Metal Lines model represents modern interior door design through vertical metal detailing that enhances height and architectural elegance within interior spaces.

FD-13 **WALL-FLUSH**

A modern wall-flush interior door designed to sit perfectly aligned with the wall, creating a seamless and minimalist architectural look. Crafted using high-spec engineered wood with premium finishes.

FD-14 **SIMPLE**

A clean and minimal interior door with a plain design and no decorative details, created for modern and functional spaces. Manufactured using high-spec engineered wood with a durable finish.

FD-15 **CONTOUR ONE**

Contour One door features a refined geometric design defined by subtle, well-balanced linear details. The combination of vertical and horizontal lines creates a sense of structure and visual depth while maintaining a clean, modern aesthetic.

FD-16 **PURE**

The Pure model represents modern design in its simplest form. Clean lines and balanced geometric panels with no added details, creating a calm and elegant look that complements contemporary interiors

FD-17 **OFFSET**

The Offset model features a contemporary design defined by a subtle contrast in lines, highlighted by an off-centered vertical metal detail that adds character without overwhelming the simplicity

FD-18 **ORIZZONTE**

The Orizzonte model features a contemporary design defined by clean horizontal lines that create a sense of visual balance and calm. The integrated horizontal metal detail adds a subtle touch of elegance without compromising the simplicity of the door

FD-19 **LINEA**

The Linea model represents refined simplicity through a clean, minimal design with no unnecessary details. Its smooth surface and straight lines allow the door to blend seamlessly with the surrounding walls

FD-20 **SCAVA**

A door that feels architectural. Clean geometry, refined grooves, and a calm presence that elevates the entire space.

FD-21 **ONE V**

Quiet geometry, perfectly balanced. A single line can change everything: subtle contouring, clean shadow lines, and precision finishing that elevates modern interiors without noise.

FD-22 **LINER ELEGANCE**

a modern interior door designed with clean geometry and balanced proportions. The dual horizontal lines create a contemporary architectural look, finished with high-spec wood materials and precise detailing ideal.

FD-23 REFLEXION

A contemporary design with elegant vertical lines that reflect refined simplicity and quiet luxury. The Linear door model features a balanced texture and a modern finish, making it a perfect solution for luxury interior doors.

FD-24 TRADITION

A double door blending classic luxury with a modern touch. Features refined recessed paneling and premium finishes for a timeless, architectural look perfect for grand entrances.

FD-25 **VERTA**

A contemporary white door defined by a striking vertical black accent strip. Its clean geometry and high-contrast detailing make it a perfect fit for modern, minimalist interiors.

FD-26 **STRATA**

A modern door showcasing a sophisticated grey wood grain with asymmetrical paneling. The intersection of horizontal and vertical lines creates an urban, architectural statement.

FD-27 STRATUM WOOD

A refined door featuring natural wood grain with a unique diagonal pattern. A vertical dark accent strip complements the earthy tones, offering a warm yet modern organic feel.

FD-28 CALM

A serene grey door featuring subtle horizontal groove detailing and clean vertical lines for a quiet, sophisticated elegance.

FD-29 **LEATHER VIBES**

A luxurious floor-to-ceiling door defined by its rich, tactile leather-like texture and seamless design for high-end interiors.
