

# Caseware SQM

A purpose-built solution for firms navigating ISQM, SQMS, CSQM and QC 1000 Compliance

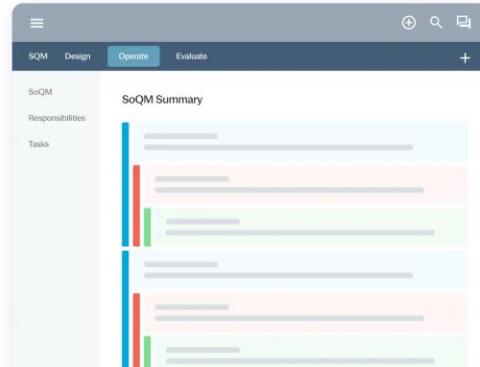

## Standards-Aligned Quality Management System

Walk through defining objectives, risks and responses using a rich library of pre-linked content. All grounded in frameworks like ISQM 1, SQMS 1, CSQM 1, and QC1000.

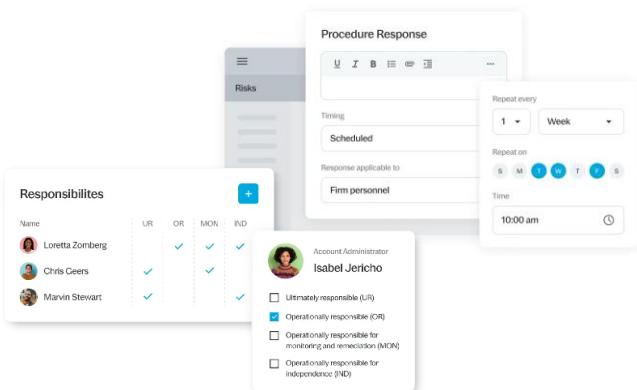

## Integrated Documentation and Task Management

Connect objectives, risks and responses in one system. Centralize records, version history, signoffs and automated task assignment that aligns policy with practice.

## Built-In Monitoring and Evaluation Tools

Track activity, assess system effectiveness and assign remediation actions. Use linked reports and dashboards to support ongoing oversight and personal tracking.

# Start using Caseware SQM today

## Design Your System of Quality Management

Define quality objectives, identify risks and link responses using guided workflows mapped to the standards relevant to your firm.

## Centralize Documentation

Maintain a complete, accessible record with automatic linkages, signoff tracking and a built-in audit trail.

## Operationalize with Task Assignments

Assign responsibilities to individuals or groups and connect them to quality responses. Tasks remain active even through personnel changes.

## Monitor in Real Time

Use dashboards and linked reports to monitor task status and view documentation progress or outdated items.

## Evaluate and Conclude

Confirm the system's effectiveness with structured evaluations, workflow for root causes and remedial action plans with electronic signoffs.
