

MAIKE LAMBARTH

CEO & CO-FOUNDER

► *strategy, partnerships and funding*

About me

As an engineer and second time founder, Maike Lambarth knows the challenges and rewards of entrepreneurship. As CEO and Co-Founder of Cyclize, she drives the company growth, leads business meetings and presentations, showcasing the strengths of their proprietary technology with passion and expertise.

Skills

- CEO-level leadership in Climate-Tech; co-founded Cyclize to defossilize chemical value chains
- Focus on plasma-enabled recycling that converts mixed plastic waste and CO₂ into syngas
- Stakeholder collaboration across industry and policy via advisory roles and public speaking

Education

- B.Sc. (Renewable Energy Engineering), University of Stuttgart
- M.Sc. (Energy Technology), University of Stuttgart

Achievements

- Former researcher, Institute for Photovoltaics (Electrical Energy Storage Systems / Power-to-X group)
- Co-inventor on three invention disclosures, one of them being related to Cyclize's electrical plasma source
- Scaled university research into pilot facilities
- Led Cyclize's €5 million seed round (February, 2024) with UVC Partners, HTGF, and others
- ODDO BHF Female Entrepreneurs Award 2025

Engagements

- Advisory Board member, Umwelttechnik BW, State Agency for Environmental Technology Baden-Württemberg
- Founder/driver behind "Raupe Immersatt," Stuttgart's foodsharing café (circular food use & community education)
- Listed expert and mentor on the #InnovativeFrauen platform

If I am not working you will find me ...

- In the mountains climbing
- In my first heart project, a food saving café
