

Positioned for Better Health

# MOTORIZED REPOSITIONING SYSTEM

- ▶ Mobile positioning device
- ▶ Prevents pressure ulcers
- ▶ Developed by and for intermediate caregivers
- ▶ Proven results

*Tilt Feature*

*Controller*

*Safety Strap*

## USER BENEFITS

- ▶ Varying angles and elevations redistribute weight and provide comfort
- ▶ Mobility promotes inclusion and socialization with peers
- ▶ Assists with offloading existing wounds
- ▶ Managed repositioning significantly reduces risk of skin breakdown and fatigue associated with joint contractures

## OPERATOR BENEFITS

- ▶ Reduced staff strain and injury when turning patients
- ▶ Time and energy saved with remote controlled positioning
- ▶ Lightweight movable backrest for convenient client adjustment
- ▶ Safety strap developed for easy access to G tube
- ▶ Push and pull handles to facilitate transport

## DEVICE SPECIFICS

- ▶ Full-access controller with varying tilt and lift functions
- ▶ High-quality steel assembly
- ▶ Waterproof cushions and safety strap
- ▶ Locking caster wheels
- ▶ Extended leg stabilizers for enhanced safety
- ▶ Easy to read control panel
- ▶ Pull-out trays for laptop, medication delivery, or meals
- ▶ IV pole included for enteral/IV pumps
- ▶ FDA Registered Device
