- **Her election would change the balance of power on the County Commission to majority of elected officials who are willing to listen to and work with working families and communities of Forsyth**

**COUNTY
COMMISSION
(DISTRICT B)**

“AGAINST”

ALL THREE Constitutional Amendments

The Voter ID Amendment would add new rules to the constitution that keep eligible Black and brown voters, students, people with disabilities, rural and older voters from voting.

The Income Tax Amendment would permanently cap the state income tax rate at 3.5%, likely leading to higher sales taxes and less funding for public schools, healthcare, and emergency services.

The Property Tax Amendment would mostly benefit large property owners like AI data centers, Duke Energy and real estate developers. It would offer little relief to struggling homeowners. It would limit the property tax revenue the local government can collect for public schools, safe streets, fire departments, and more.

VOTE AGAINST ALL THREE.

NC GENERAL ASSEMBLY

The corporate-Republicans who control the NCGA are robbing our communities and attacking our power. They consistently siphon public funds from our communities into the pockets of corporations and wealthy individuals to make themselves richer. Their actions create huge crises that force us to choose between healthcare, food, or utility bills. But those politicians are not invincible. Together with thousands of NC voters like you, we have demonstrated that people power can unseat NCGA incumbents.

It's time to flex our power again to elect leaders like Amy Taylor North to the NCGA who'll choose everyday people over corporate and personal profit, fight for our public schools, and protect our freedoms.

[HD-74] Amy Taylor North
