What Are Armed Guard Services?

Armed guard services use licensed security operators who are authorized to carry a firearm while protecting high-value property. In Canada, this is allowed only in specific cases, mainly when handling, transporting or protecting cash, negotiable instruments or other goods of substantial value is the core of the job.

WHEN ARMED SECURITY MAKES SENSE

- ✓ **Moving cash** and negotiable instruments
- ✓ **Delivering precious metals**, jewellery and luxury goods
- ✓ **Moving high-value crypto hardware wallets**, secure keys and digital asset devices
- ✓ **Protecting high-value displays** of jewellery, art and collections
- ✓ **On-site protection** for locations that hold high-value goods
- ✓ **After-hours coverage** when high-value sites are closed

Licensed and Compliant

Every job starts with a risk review to confirm armed protection is allowed and the right fit.

WHAT WE PROVIDE

- ✓ Armed protection within what Ontario and federal law allow
- ✓ Licensed operators with current authorizations
- ✓ A risk review and security plan for every job

WHAT WE DON'T PROVIDE

- ✗ Armed bodyguards, which Canadian law rarely allows
- ✗ Armed coverage without a risk review
- ✗ Any armed service outside what Ontario and federal law allow
