# SOJO SHIELD™

Sojo Shield™ is a cutting-edge, FDA FSMA 204 compliant track and trace solution designed to provide complete product visibility and recall readiness. Built on secure blockchain technology, Sojo Shield™ ensures traceability of every lot code within a variety-packed case. It replaces traditional data warehousing with seamless ERP integration and delivers real-time production insights, empowering brands with faster, more accurate recall response and supply chain transparency.

KEY FEATURES:

- Blockchain-secure data records
- Real-time IoT tracking
- Automated FSMA 204 compliance
- Proprietary smart hardware
- AI-powered analytics & reporting
- ERP + WMS system interoperability

PAIN POINTS SOLVED:

- Eliminates blind spots across the supply chain
- Simplify and automate FSMA 204 reporting
- Secure data from tampering or loss
- Cut recall response time drastically
