

# AOM-10W

## Ozone Sensor

Budget Friendly

24/7 Reliability

Simple To Operate

No Capital Required

### Power Supply

24 VDC

### Analog Output

0-2 vdc

### Size

13.82 x 6.94

### Range

0-1 ppm

### Lower Detection Limit

0.03 ppm

### Resolution

0.01 ppm

### Accuracy

+/- 10% of reading or 0.05 ppm

### Response Time

<60s to 90% full scale

### Alarm Setpoint

0.25 ppm

### Zero Adjustment

The OEM-3 includes a re-zero feature, to allow for periodic zero adjustment as needed. Place sensor in a known O<sub>3</sub>-free environment, and when the signal is stable, press the zero but-ton to set zero.

### Set Point Adjustment

User may adjust the set point threshold of the relay anywhere between 0- 100% of the factory calibrated set point.
