The infrastructure, construction, and transport sectors are the backbone of economic development, requiring careful navigation of regulatory frameworks, complex contractual obligations, and evolving industry standards. Companies operating in these sectors face unique legal challenges related to project financing, risk management, and regulatory compliance. Our team offers specialized legal services tailored to the needs of infrastructure, construction, and transport companies, helping them manage risks, ensure compliance, and successfully deliver projects that drive growth and innovation.

Capabilities

Project Financing and Development	We assist companies in securing project financing, structuring development agreements, and navigating the legal aspects of large-scale infrastructure projects, ensuring that all financial and legal requirements are met.
Regulatory Compliance and Environmental Law	We provide legal counsel on compliance with regulatory requirements, including environmental laws, safety standards, and construction regulations, helping companies avoid legal pitfalls and maintain sustainable practices.
Construction Contracts and Dispute Resolution	We offer expertise in drafting, negotiating, and enforcing construction contracts, as well as resolving disputes through arbitration, mediation, or litigation, ensuring that projects stay on track.
Public-Private Partnerships (PPPs)	We advise on the legal aspects of public-private partnerships, including contract negotiation, risk allocation, and compliance with public procurement laws, enabling successful collaboration between public and private entities.
Infrastructure Mergers and Acquisitions	We support companies in mergers, acquisitions, and joint ventures within the infrastructure and transport sectors, including due diligence, transaction structuring, and securing regulatory approvals.
Transportation and Logistics Law	We provide legal services related to transportation and logistics, including compliance with transportation regulations, management of supply chain contracts, and resolution of disputes.
Real Estate and Land Use	We offer guidance on real estate transactions, land use planning, zoning issues, and property development, helping companies navigate the legal complexities of acquiring and developing land for infrastructure projects.
Risk Management and Insurance	We advise on risk management strategies and insurance coverage for construction and infrastructure projects, ensuring that companies are protected against potential legal and financial risks.
Health and Safety Compliance	We provide legal support on health and safety regulations specific to the construction and transport sectors, helping companies implement best practices and comply with relevant laws.
Technology and Innovation in Infrastructure	We assist companies in integrating new technologies into their infrastructure and transport projects, advising on legal issues related to digitalization, smart infrastructure, and innovative construction methods.
