

Why

Site360

Over WorkxSafety

When comparing these solutions, **Site360** stands out as a **comprehensive visibility and compliance management platform** built for aged care, retail, construction and complex facilities, prioritising proactive **safety, compliance, and operational efficiency**. In contrast, Worx Safety is primarily a WHS-focused tool, centred on incident reporting, risk management, and compliance documentation. Site360 usability and comprehensive safety and compliance.

FEATURES	WORXSAFETY	SITE360
INDUSTRY SUITABILITY	Generic WHS system, less tailored for more compliance heavy sectors	Purpose-built for builders, aged and industries with high compliance needs
360° VISIBILITY	Mainly form-driven; lacks the same real-time visual and oversight capabilities	Provides digital site overview of all risks, assets, contractors, compliance tasks
EASE OF USE	More traditional WHS software interface	Mobile-first, intuitive dashboards, drag-and-drop features
INTEGRATION	Primarily WHS, often requires add-ons for broader use	Connects safety, facilities, contractors & compliance all in one platform
CONTRACTOR MANAGEMENT	Basic compliance checks, less depth	Full lifecycle (induction, compliance, monitoring)
REGULATORY READINESS	General WHS compliance	Built around accreditation & reporting requirements
VALUE	Focuses narrowly on WHS compliance	Broader operational efficiency beyond just safety

## TALKING POINT

## We Already Use WorxSafety, Why Switch?

Worx Safety is strong for WHS compliance, but it **doesn't** give you the full operational oversight Site360 does. Site360 covers **contractors, compliance, and site-wide visibility** in one place — that's why many switch to SITE360

## TALKING POINT

## WorxSafety Is Cheaper

WorxSafety is a cheaper option however SITE360 delivers more than compliance — it **reduces contractor risk**, speeds up audits, and helps staff save time. The **ROI on Site360 outweighs any cost differences**, as we prevent, not react.

## TALKING POINT

## We've Already Trained All Our Staff With WorxSafety

**Site360 is easier to use** and this is one of the biggest pieces of feedback we get from clients who make the switch. Most teams are **up and running faster**, compared to traditional WHS software.

## Why Businesses Are Switching From *WorxSafety* To **Site360**

### Here's Why Clients Are Making The Switch

- **Built For Your Entire Operations— Not Just WHS —**  
Built for operations, not just paperwork. Worx Safety helps you record incidents. Site360 helps you run safer, more compliant sites by connecting every moving part — people, data, and processes.
- **See What's Really Happening On-Site —**  
Instead of scrolling through spreadsheets and reports, Site360 gives you a clear, visual command centre of your entire site — from head office to the coalface.
- **From Reactive To Predictive —**  
Worx Safety waits for incidents. Site360 spots trends and risks before they become problems, helping you stay one step ahead.
- **Future Ready Platform —**  
While Worx Safety feels static, Site360 keeps evolving — supporting digital transformation initiatives, smart integrations, and continuous improvement.

## WHEN TO PICK **Site360**

### ✗ **WorxSafety** = A Little

The bare minimum requirements for safety and WHS. Limited suitability for building a safety and compliance ecosystem.

### ✓ **Site360** = A Lot:

Site360 is built to run **safer, smarter, and more efficient sites** by helping you what's happening and prevent what's next.
