# Site360

Why Site360 Over LinkSafe

Site360 is a *mobile-first*, cloud-based platform that gives you real-time visibility and control across all your sites. It goes beyond compliance management by enabling GPS check-ins, evacuation tracking, safety alerts, and multi-site reporting — **all deployable in less than 24 hours.**

FEATURES	LINKSAFE	SITE360
DEPLOYMENT	Long setup process More steps involved	Rolled out on any site, WITHIN 24 hours
CHECK INS	Outdated QR Code check-ins Vulnerable to fraud	GPS based Only Check-In when on site
EMERGENCY MANAGEMENT	Limited incident reporting features, with no real-time evacuation process.	Live evacuation management, with real-time incident reporting and safety alerts
MULTI-SITE REPORTING	Limited Reporting Less Multi-Site Visibility	Aggregated Reporting Dashboards (Site, Region, National)
MULTI-SITE REPORTING	Reports tailored to Individual Contractors Not geared for large Multi-Site Reporting	Real-Time, Aggregated Dashboards (Site, Region, National)
EASE OF USE	More Complex Induction Processes	Mobile First & User Friendly Intuitive for the average Contractor
SCALABILITY	Primarily built for compliance-heavy sectors	SaaS Model Perfect for any Industry
LANGUAGE SUPPPORT	English Only	15+ Languages

TALKING POINT

We Trust LinkSafe For Compliance

LinkSafe is indeed strong for Compliance but why do half the job? Site360 gives you compliance + **real-time site safety and oversight**. It's built for modern <u>multi-site operations</u> where speed and visibility matter.

TALKING POINT

Our Business Uses QR Codes, They Work Just Fine

LinkSafe is indeed strong for Compliance but why do half the job?Site360 gives you compliance + **real-time site safety and oversight**. It's built for modern <u>multi-site operations</u> where speed and visibility matter.

TALKING POINT

We Only Need Induction And Credential Tracking

Site360 does all that <u>**and adds**</u> evacuation management, live dashboards, and emergency alerts. Why stop at just compliance when you can have **complete operational safety?**

TALKING POINT

Switching Platforms Now Will Just Be Disruptive

Site360 is cloud-based and designed for rapid rollout. Most clients go live in a day, with minimal IT involvement.

What Do I Get Back?

☑ **Less Admin, Less Chasing, More Automated Alerts.**

☑ **Faster Hazard Response, More Safety, Less Risk**

☑ **Better Oversight, Cut Blind Spots Across Sites**

☑ **Geo Check-Ins For Accurate Compliance, Less Fraud**

LinkSafe FOR   PICK   **Site360** FOR

LinkSafe	Site360
