

## Warranty Workflow

1

### Accessed

Contractors can access digital warranty forms in-app anytime, on any site across your network.

### Completed

Completion of warranty forms is smooth and seamless, generating a full digital audit trail for compliance and record-keeping.

### Substantiated

Users provide details of work parameters through photo uploads, comments and assign severity levels and follow-up dates, for each warranty request.

2

### Resolved

Resolved warranty requests are stored in our 'Close-Out' module, for full visibility and audit trails.

3

### Relayed

Once completed, warranty forms are sent to supervisors, managers, or responsible parties to drive timely action on required repairs and work.
