

Planíssima Duo

Acrylic

Illustrative image

Material *Acrylic*

Acrylic is a lightweight, durable material with a smooth finish and a warm, tactile feel. The thermoforming of high-quality acrylic sheets ensures a non-porous surface, user comfort and consistent colour stability.

Lightweight and impact-resistant material

Resistant to humidity and deformation

Allows seamless monobloc construction

Warm and pleasant to the touch

Non-porous structure with high colour stability

Hygienic and repellent finish for easy cleaning

Extras

Support legs

Acrylic front and side panels

Black polyurethane headrest

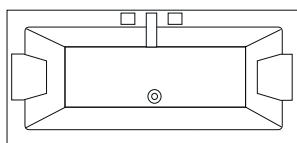

Automatic waste valve

Chrome handles

Built-in tap installation

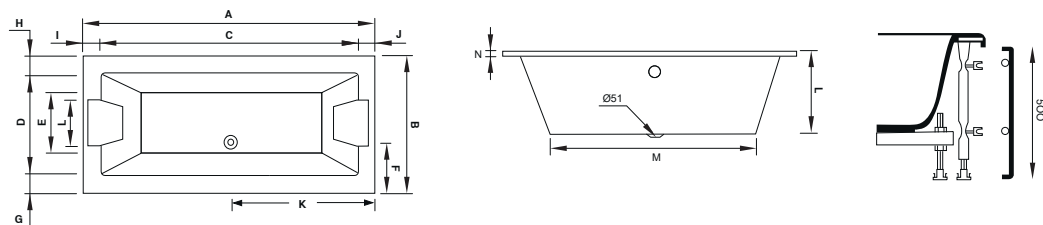

We recommend installing an anti-drip kit with built-in taps to prevent water from entering through the hand shower holder opening, where it may accumulate in the lower section of the bathtub.

This device allows water to drain during and after use through the flexible hose connecting the anti-drip system to the automatic waste valve.
